Quotation basis

Product pricing, minimum order quantities, packaging, availability and lead times are confirmed in the formal quotation for the selected products, quantities, customisation requirements and destination.

Flat Tensile Rope

Model: RSPRO9001_01

Handled resistance ropes for rotational, pushing and pulling exercises.

Full specifications, packaging information, applicable certifications and current lead time are available with a formal quotation.

Latex Resistance Bands

Model: RSPRO9003_01

Two-metre latex bands for adjustable resistance and mobility exercises.

Full specifications, packaging information, applicable certifications and current lead time are available with a formal quotation.

Long Loop Bands

Model: RSPRO9002_01

Long loop bands for assisted pull-ups, strength training and stretching.

Full specifications, packaging information, applicable certifications and current lead time are available with a formal quotation.

Short Loop Bands

Model: RSPRO9004_01

Short loop bands for hip activation, lateral movement and shoulder exercises.

Full specifications, packaging information, applicable certifications and current lead time are available with a formal quotation.

Elliptic Balance Trainer

Oval balance trainer with textured positioning marks and integrated carrying handles.

Full specifications, packaging information, applicable certifications and current lead time are available with a formal quotation.

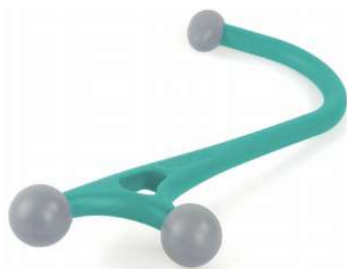

Personal Trainer Hanging Mat

Model: [RSPRO9011_01](#)

TPE hanging mat for personal training, with a cushioned non-slip surface.

Full specifications, packaging information, applicable certifications and current lead time are available with a formal quotation.

Acucurve Cane

Self-massage cane with a curved handle and multiple pressure points.

Full specifications, packaging information, applicable certifications and current lead time are available with a formal quotation.

Small Dumbbell Racks

Compact vertical rack designed to organise cube dumbbells.

Full specifications, packaging information, applicable certifications and current lead time are available with a formal quotation.

Core Square Cushion

Inflatable square cushion for seated movement and balance exercises.

Full specifications, packaging information, applicable certifications and current lead time are available with a formal quotation.

Little Dolphin Cushion

Curved support for positioning, balance and controlled mobility exercises.

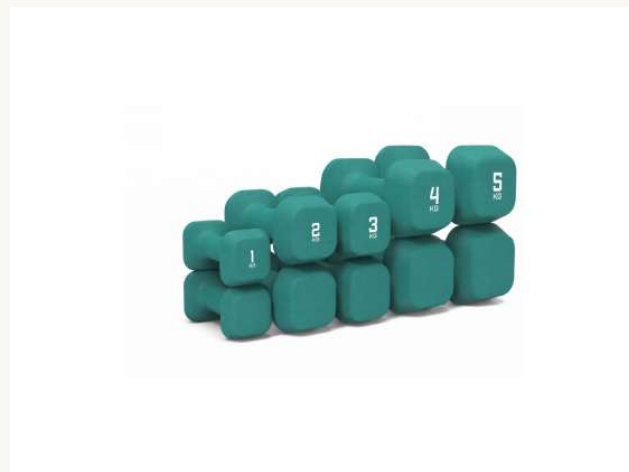

Full specifications, packaging information, applicable certifications and current lead time are available with a formal quotation.

Elastic Training Bar

Flexible training bars for controlled resistance and multi-directional movement.

Full specifications, packaging information, applicable certifications and current lead time are available with a formal quotation.

Cube Dumbbell

Model: **RSPRO9031_01**

Square-headed coated dumbbells with five weight options and an anti-roll shape.

Full specifications, packaging information, applicable certifications and current lead time are available with a formal quotation.

Medicine Ball

Model: RSPRO9017_01

Textured, filled medicine balls for throwing and explosive-strength drills.

Full specifications, packaging information, applicable certifications and current lead time are available with a formal quotation.

Suspension Training System 3.0

Adjustable bodyweight suspension system with handles, foot straps and door anchor.

Full specifications, packaging information, applicable certifications and current lead time are available with a formal quotation.

Pushup Hug Rack

Model: RSPRO9014_01

Foldable wooden push-up supports with non-slip pads and magnetic connections.

Full specifications, packaging information, applicable certifications and current lead time are available with a formal quotation.

Toe Function Board

Reversible foot-training board with removable fins for adjusting the incline.

Full specifications, packaging information, applicable certifications and current lead time are available with a formal quotation.

Cork Yoga Mat

Cork-surface yoga mat with a dense rubber backing.

Full specifications, packaging information, applicable certifications and current lead time are available with a formal quotation.

Cork Meditation Mat

Round cork meditation mat with a natural-rubber base.

Full specifications, packaging information, applicable certifications and current lead time are available with a formal quotation.

Cork Yoga Wedge

Rounded cork wedge for supported yoga positions and stretching.

Full specifications, packaging information, applicable certifications and current lead time are available with a formal quotation.

Cork Massage Ball

Compact cork ball for self-massage; not intended as a children's toy.

Full specifications, packaging information, applicable certifications and current lead time are available with a formal quotation.

Cork Peanut Massage Ball

Double-lobed cork massage ball for targeted rolling exercises.

Full specifications, packaging information, applicable certifications and current lead time are available with a formal quotation.

Cork Extra Cushion

Flat cork cushion for supporting knees, wrists and elbows during practice.

Full specifications, packaging information, applicable certifications and current lead time are available with a formal quotation.

Cork Yoga Block

Rounded cork block for supporting or modifying yoga poses.

Full specifications, packaging information, applicable certifications and current lead time are available with a formal quotation.

Cork Egg Block

Curved egg-shaped cork block for supported stretching and yoga.

Full specifications, packaging information, applicable certifications and current lead time are available with a formal quotation.

Cork Yoga Wheel

Cork yoga wheel for supported back and shoulder stretching.

Full specifications, packaging information, applicable certifications and current lead time are available with a formal quotation.

Cork Yoga Roller

Cork roller for controlled rolling and mobility exercises.

Full specifications, packaging information, applicable certifications and current lead time are available with a formal quotation.

Resistance Loop Band · X.R.016

Model: X.R.016A / X.R.016B / X.R.016C / X.R.016D

A closed-loop resistance band for warm-ups and suitable upper- or lower-body exercises. Choose resistance and loop dimensions and inspect before use.

Full specifications, packaging information, applicable certifications and current lead time are available with a formal quotation.

Resistance Loop Band · X.R.005

Model: X.R.005A / X.R.005B / X.R.005C / X.R.005D / X.R.005E

A closed-loop resistance band for warm-ups and suitable upper- or lower-body exercises. Choose resistance and loop dimensions and inspect before use.

Full specifications, packaging information, applicable certifications and current lead time are available with a formal quotation.

Resistance Band

Model: X.R.012A / X.R.012B / X.R.012C / X.R.012D / X.R.012E

A resistance band for warm-ups, assisted strength work and mobility sessions. Length and resistance vary by model; use within a comfortable range.

Full specifications, packaging information, applicable certifications and current lead time are available with a formal quotation.

Pull Up Assist Band · X.R.003

Model: X.R.003A / X.R.003B / X.R.003C / X.R.003D / X.R.003E

A long resistance band for assisted pull-ups and resistance drills. Check anchor points and resistance level and avoid abrasive contact edges.

Full specifications, packaging information, applicable certifications and current lead time are available with a formal quotation.

Pull Up Assist Band · X.R.022

Model: X.R.022

A long resistance band for assisted pull-ups and resistance drills. Check anchor points and resistance level and avoid abrasive contact edges.

Full specifications, packaging information, applicable certifications and current lead time are available with a formal quotation.

Figure 8 Resistance Band

Model: J.R.164A / J.R.164B / J.R.164C / J.R.164D / J.R.164E

A closed-loop resistance band for warm-ups and suitable upper- or lower-body exercises. Choose resistance and loop dimensions and inspect before use.

Full specifications, packaging information, applicable certifications and current lead time are available with a formal quotation.

Pull Up Assist Band · F.S.001

Model: F.S.001A / F.S.001B / F.S.001C / F.S.001F / F.S.001G

A long resistance band for assisted pull-ups and resistance drills. Check anchor points and resistance level and avoid abrasive contact edges.

Full specifications, packaging information, applicable certifications and current lead time are available with a formal quotation.

Latex Resistance Loop Band · F.R.001

Model: F.R.001A / F.R.001B / F.R.001C / F.R.001E / F.R.001G

A closed-loop resistance band for warm-ups and suitable upper- or lower-body exercises. Choose resistance and loop dimensions and inspect before use.

Full specifications, packaging information, applicable certifications and current lead time are available with a formal quotation.

Latex Resistance Loop Band · J.R.116

Model: J.R.116A / J.R.116C / J.R.116D / J.R.116F

A closed-loop resistance band for warm-ups and suitable upper- or lower-body exercises. Choose resistance and loop dimensions and inspect before use.

Full specifications, packaging information, applicable certifications and current lead time are available with a formal quotation.

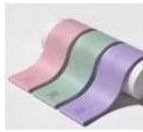

X Strap

Model: F.R.014A

A resistance band for warm-ups, assisted strength work and mobility sessions. Length and resistance vary by model; use within a comfortable range.

Full specifications, packaging information, applicable certifications and current lead time are available with a formal quotation.

Silicone Loop Band

Model: F.R.007A / F.R.007B / F.R.007C

A closed-loop resistance band for warm-ups and suitable upper- or lower-body exercises. Choose resistance and loop dimensions and inspect before use.

Full specifications, packaging information, applicable certifications and current lead time are available with a formal quotation.

Hardstyle Kettlebell

Hardstyle kettlebells for swings and functional-strength training.

Full specifications, packaging information, applicable certifications and current lead time are available with a formal quotation.

Pu Kettlebell

Model: RSPRO0001 - 01

Polyurethane kettlebells with stainless-steel handles and visible weight markings.

Full specifications, packaging information, applicable certifications and current lead time are available with a formal quotation.

Soft Kettlebell

Model: RSPRO0003 - 01

Soft-covered kettlebells filled with rubber particles and iron sand.

Full specifications, packaging information, applicable certifications and current lead time are available with a formal quotation.

Signature Sport Kettlebells

Competition-style kettlebells with a powder-coated finish and recessed weight markings.

Full specifications, packaging information, applicable certifications and current lead time are available with a formal quotation.

Center Mass Bell

Model: RSPRO0040_01

Centre-grip weights for carrying and multi-directional strength exercises.

Full specifications, packaging information, applicable certifications and current lead time are available with a formal quotation.

Medicine Ball

Model: RSPRO0005_06

Rebounding medicine balls for throwing and whole-body power drills.

Full specifications, packaging information, applicable certifications and current lead time are available with a formal quotation.

Strength Training Bag

Model: RSPRO001 0 - 01

Multi-grip Bulgarian-style bags for swinging, lifting and rotational exercises.

Full specifications, packaging information, applicable certifications and current lead time are available with a formal quotation.

Power Bag

Model: RSPRO001 2 - 01

Fixed-weight power bags with multiple handles for functional training.

Full specifications, packaging information, applicable certifications and current lead time are available with a formal quotation.

Echo Slam Ball

Model: RSPRO0037_01

Low-rebound slam balls for explosive throws and core-strength drills.

Full specifications, packaging information, applicable certifications and current lead time are available with a formal quotation.

Wall Ball

Model: RSPRO0008_06

Padded wall balls for throwing, catching and compound movements.

Full specifications, packaging information, applicable certifications and current lead time are available with a formal quotation.

Adjustable Aqua Bag

Adjustable water-filled bags that add a shifting load to training.

Full specifications, packaging information, applicable certifications and current lead time are available with a formal quotation.

Adjustable Power Bag

Model: RSPRO0014 - 01

Fillable training bags with reinforced handles for adjustable resistance.

Full specifications, packaging information, applicable certifications and current lead time are available with a formal quotation.

Core Hammer

Rubber-headed training hammers with a shock-absorbing handle.

Full specifications, packaging information, applicable certifications and current lead time are available with a formal quotation.

Sand Bell

Model: RSPRO001 6 - 01

Hexagonal sand-filled weights for dynamic grip and strength exercises.

Full specifications, packaging information, applicable certifications and current lead time are available with a formal quotation.

Team Worm Bag

Model: RSPRO0015_01

Long team sandbags for coordinated group-strength training.

Full specifications, packaging information, applicable certifications and current lead time are available with a formal quotation.

Functional Training Barrel

Model: RSPRO0001 1 - 01

Square-profile weighted barrels for multi-directional functional training.

Full specifications, packaging information, applicable certifications and current lead time are available with a formal quotation.

Steelhose

Model: RSPRO0038_01

Flexible weighted tubes for flowing movements and grip training.

Full specifications, packaging information, applicable certifications and current lead time are available with a formal quotation.

Strongman Bag

Model: RSPRO0006_01

Fillable strongman bags with carrying handles and layered closures; supplied without filling.

Full specifications, packaging information, applicable certifications and current lead time are available with a formal quotation.

3D Clubbell

Model: RSPRO0035_01

Coated clubbells with knurled handles for circular strength movements.

Full specifications, packaging information, applicable certifications and current lead time are available with a formal quotation.

Climbing Rope

Heavy-duty climbing rope with a reinforced hanging attachment.

Full specifications, packaging information, applicable certifications and current lead time are available with a formal quotation.

Speed Jump Rope

Adjustable steel-cable skipping rope with aluminium handles and bearings.

Full specifications, packaging information, applicable certifications and current lead time are available with a formal quotation.

Battle Rope-Outdoor Style

Outdoor battle rope with a protective sleeve and reinforced grips.

Full specifications, packaging information, applicable certifications and current lead time are available with a formal quotation.

Weighted Jump Rope

Weighted jump rope for coordinated conditioning and resistance training.

Full specifications, packaging information, applicable certifications and current lead time are available with a formal quotation.

Battle Rope-Indoor Style

Model: RSPRO0023 - 01

Soft woven indoor battle rope for wave and interval exercises.

Full specifications, packaging information, applicable certifications and current lead time are available with a formal quotation.

Hand Ring

Wooden gymnastic rings with adjustable straps for bodyweight training.

Full specifications, packaging information, applicable certifications and current lead time are available with a formal quotation.

Rotational Training System

Pulley-based suspension system for static and rotational bodyweight exercises.

Full specifications, packaging information, applicable certifications and current lead time are available with a formal quotation.

Aerobic Step

Non-slip aerobic step with three height settings.

Full specifications, packaging information, applicable certifications and current lead time are available with a formal quotation.

Octagonal Aerobic Step

Lightweight octagonal step with stacking bases for aerobic and bodyweight training.

Full specifications, packaging information, applicable certifications and current lead time are available with a formal quotation.

Adjustable Dumbbell Training Box

Model: RSPRO0029

Combined training bench and equipment-storage box.

Full specifications, packaging information, applicable certifications and current lead time are available with a formal quotation.

Tyre Flip Machine

Stationary tyre-flip trainer designed for compact indoor training spaces.

Full specifications, packaging information, applicable certifications and current lead time are available with a formal quotation.

Heavy Strength Sled

Plate-loaded sled with attachment points for pushing, pulling and intervals.

Full specifications, packaging information, applicable certifications and current lead time are available with a formal quotation.

Decagonal Training Tire

Model: RSPRO0033 - 01

Decagonal training tyre with handles for lifting, carrying and flipping.

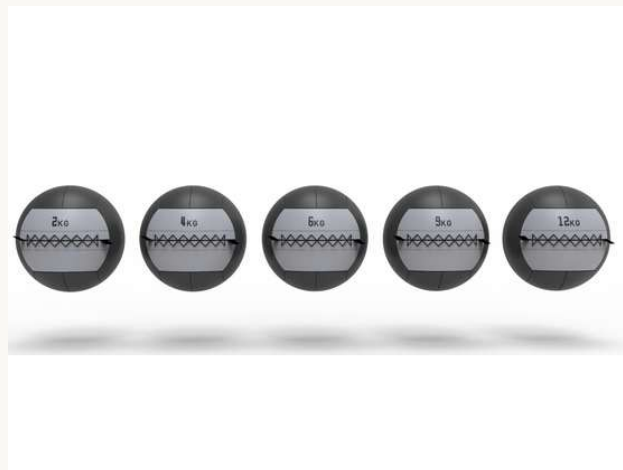

Full specifications, packaging information, applicable certifications and current lead time are available with a formal quotation.

Tank Sled Machine

Magnetic-resistance push sled with eight resistance settings and storage basket.

Full specifications, packaging information, applicable certifications and current lead time are available with a formal quotation.

Wall Ball

Model: X.S.029A / X.S.029B / X.S.029C / X.S.029D / X.S.029E

Designed for wall throws and group circuits, combining throwing movements with lower-body drive. Choose the listed weight to suit the session and training space.

Full specifications, packaging information, applicable certifications and current lead time are available with a formal quotation.

Power Rope

Model: X.S.030A

A rope for wave, alternating and pulling drills within strength and conditioning circuits. Length, diameter and attachment details depend on the selected model.

Full specifications, packaging information, applicable certifications and current lead time are available with a formal quotation.

Competition Sand Bag

Model: J.S.159A / J.S.159B / J.S.159C

A weighted bag for lifts, loaded carries and whole-body circuits. Select the weight for the session and confirm material and configuration in the model specifications.

Full specifications, packaging information, applicable certifications and current lead time are available with a formal quotation.

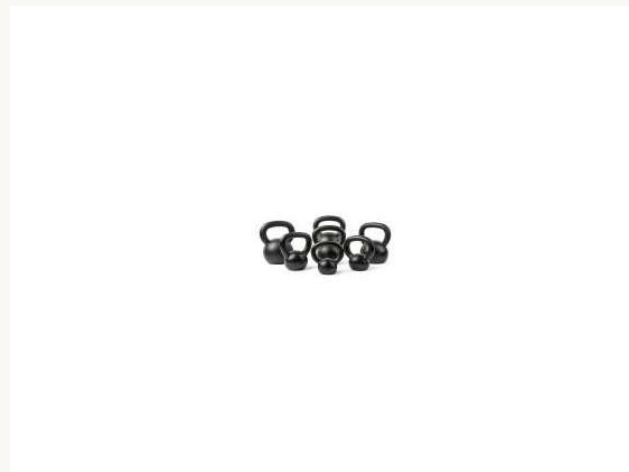

Power Sled

Model: X.S.031A

A sled for pushing and pulling drills. Combine suitable loads and distances within conditioning sessions; confirm flooring, plates and attachments before use.

Full specifications, packaging information, applicable certifications and current lead time are available with a formal quotation.

Cast Iron Kettlebell

Model: X.S.013A / X.S.013B / X.S.013C / X.S.013D / X.S.013E / X.S.013F / X.S.013G

A kettlebell for swings, lifts and squat variations. Listed weights allow selection for different experience levels and strength-training sessions.

Full specifications, packaging information, applicable certifications and current lead time are available with a formal quotation.

Medicine Ball

Model: X.C.002A / X.C.002B / X.C.002C / X.C.002D / X.C.002E / X.C.002F / X.C.002G / X.C.002H / X.C.002I / X.C.002J

A medicine ball for loaded passes, rotations and coordination drills. Choose weight for the user; do not assume suitability for slamming unless confirmed.

Full specifications, packaging information, applicable certifications and current lead time are available with a formal quotation.

Double Handle Medicine Ball

Model: X.S.020A / X.S.020B / X.S.020C / X.S.020D / X.S.020E / X.S.020F / X.S.020G / X.S.020H

A dual-handle medicine ball for lifts, rotations and loaded core exercises. Choose the listed weight and use grip positions suitable for the movement.

Full specifications, packaging information, applicable certifications and current lead time are available with a formal quotation.

Swing Ball

Model: X.C.008A / X.C.008B / X.C.008C / X.C.008D / X.C.008E / X.C.008F / X.C.008G / X.C.008H / X.C.008I

A ball with a rope for swinging and rotational drills. Allow adequate clearance and confirm ball weight and rope configuration for the chosen model.

Full specifications, packaging information, applicable certifications and current lead time are available with a formal quotation.

Pro Sled

Model: X.S.017

A sled for pushing and pulling drills. Combine suitable loads and distances within conditioning sessions; confirm flooring, plates and attachments before use.

Full specifications, packaging information, applicable certifications and current lead time are available with a formal quotation.

Water Roller

Model: X.C.004A

A fillable water-training tool for lifts, rotations and core-control exercises. Follow guidance for filling, sealing and permitted use.

Full specifications, packaging information, applicable certifications and current lead time are available with a formal quotation.

Battle Rope

Model: X.S.006C / X.S.006D / X.S.006A / X.S.006B / X.S.006E / X.S.006F

A rope for wave, alternating and pulling drills within strength and conditioning circuits. Length, diameter and attachment details depend on the selected model.

Full specifications, packaging information, applicable certifications and current lead time are available with a formal quotation.

Functional Training Barrel

Model: F.S.003A / F.S.003B / F.S.003C / F.S.003D

A weighted training tube for multi-position grips, rotations, lifts and coordination drills. Select weight and material from the listed models.

Full specifications, packaging information, applicable certifications and current lead time are available with a formal quotation.

Sand Ball

Model: F.T.005A / F.T.005B / F.T.005C / F.T.005D / F.T.005E

A small weighted ball for mat-based and handheld control exercises. Confirm the listed weight unit and individual item configuration.

Full specifications, packaging information, applicable certifications and current lead time are available with a formal quotation.

Soft PVC Kettlebell · F.S.0014

Model: F.S.0014A / F.S.0014B / F.S.0014C

A kettlebell for swings, lifts and squat variations. Listed weights allow selection for different experience levels and strength-training sessions.

Full specifications, packaging information, applicable certifications and current lead time are available with a formal quotation.

Soft PVC Kettlebell · F.S.002

Model: F.S.002AA / F.S.002AB / F.S.002BA / F.S.002BB / F.S.002AC / F.S.002AD

A kettlebell for swings, lifts and squat variations. Listed weights allow selection for different experience levels and strength-training sessions.

Full specifications, packaging information, applicable certifications and current lead time are available with a formal quotation.

Fractional Plate

Model: RSPRO1 001 - 01

Small incremental plates for adjusting barbell loads.

Full specifications, packaging information, applicable certifications and current lead time are available with a formal quotation.

Cast Iron Weight Plate

Model: RSPRO1 004 - 01

Classic cast-iron plates for everyday strength training.

Full specifications, packaging information, applicable certifications and current lead time are available with a formal quotation.

Competition Bumper Plates

Model: RSPRO1 002 - 01

Colour-coded polyurethane bumper plates with metal centre inserts.

Full specifications, packaging information, applicable certifications and current lead time are available with a formal quotation.

Rubber Hex Dumbbell

Model: RSPRO1007_01

Rubber-coated hex dumbbells with textured grips.

Full specifications, packaging information, applicable certifications and current lead time are available with a formal quotation.

Mecha-Weight Plate

Model: RSPRO1 005 - 01

Mecha-pattern grip plates with coated iron cores and flat resting edges.

Full specifications, packaging information, applicable certifications and current lead time are available with a formal quotation.

Mecha-Dumbbell

Model: RSPRO1010_01

Mecha-series fixed dumbbells with coated heads and chrome-plated handles.

Full specifications, packaging information, applicable certifications and current lead time are available with a formal quotation.

Mecha-Straight Barbell

Model: RSPRO1047_01

Mecha-series straight fixed barbells with polyurethane-coated heads.

Full specifications, packaging information, applicable certifications and current lead time are available with a formal quotation.

Mecha-Curl Barbell

Model: RSPRO1048_01

Mecha-series curl fixed barbells with polyurethane-coated heads.

Full specifications, packaging information, applicable certifications and current lead time are available with a formal quotation.

Reuleaux-Weight Plate

Model: RSPRO1 006 - 01

Three-grip polyurethane plates for strength training; not intended for dropping.

Full specifications, packaging information, applicable certifications and current lead time are available with a formal quotation.

Reuleaux-Dumbbell

Model: RSPRO1009_01

Reuleaux-series coated dumbbells with knurled steel handles.

Full specifications, packaging information, applicable certifications and current lead time are available with a formal quotation.

Reuleaux-Straight Barbell

Model: RSPRO1011_01

Reuleaux-series straight fixed barbells for repeated gym use.

Full specifications, packaging information, applicable certifications and current lead time are available with a formal quotation.

Reuleaux-Curl Barbell

Model: RSPRO1012_01

Reuleaux-series curl fixed barbells with knurled handles.

Full specifications, packaging information, applicable certifications and current lead time are available with a formal quotation.

Diamond-Weight Plate

Model: RSPRO1041_01

Rubber-coated iron plates with five integrated grip openings.

Full specifications, packaging information, applicable certifications and current lead time are available with a formal quotation.

Diamond-Straight Barbell

Model: RSPRO1045_01

Diamond-series straight fixed barbells with rubber-coated heads.

Full specifications, packaging information, applicable certifications and current lead time are available with a formal quotation.

Diamond-Curl Barbell

Model: RSPRO1046_01

Diamond-series curl fixed barbells with rubber-coated heads.

Full specifications, packaging information, applicable certifications and current lead time are available with a formal quotation.

Diamond-Dumbbell

Model: RSPRO1043_01

Diamond-series rubber-coated dumbbells with chrome knurled handles.

Full specifications, packaging information, applicable certifications and current lead time are available with a formal quotation.

Professional Male Training Bar

Men's training bar with a black-chrome shaft and hard-chrome sleeves.

Full specifications, packaging information, applicable certifications and current lead time are available with a formal quotation.

Professional Female Training Bar

Women's training bar with a black-chrome shaft and hard-chrome sleeves.

Full specifications, packaging information, applicable certifications and current lead time are available with a formal quotation.

Professional Bench Press Bar

Bench-press bar with a hard-chrome finish and knurled grip.

Full specifications, packaging information, applicable certifications and current lead time are available with a formal quotation.

Professional Squat And Pull Bar

Squat-and-pull bar with a hard-chrome finish and knurled grip.

Full specifications, packaging information, applicable certifications and current lead time are available with a formal quotation.

Competition Male Weightlifting Bar

Model: RSPRO1 01 7

Men's competition bar with a red shaft and rotating sleeves.

Full specifications, packaging information, applicable certifications and current lead time are available with a formal quotation.

Competition Female Weightlifting Bar

Women's competition bar with a red shaft and rotating sleeves.

Full specifications, packaging information, applicable certifications and current lead time are available with a formal quotation.

Fitness Short Curl Bar

Model: RSPRO1 01 3

Short curl training bar with rotating sleeves and a chrome finish.

Full specifications, packaging information, applicable certifications and current lead time are available with a formal quotation.

Fitness Short Straight Bar

Short straight training bar with rotating sleeves and a chrome finish.

Full specifications, packaging information, applicable certifications and current lead time are available with a formal quotation.

Elastic Barbell

Flexible barbell for controlled oscillation and stability exercises.

Full specifications, packaging information, applicable certifications and current lead time are available with a formal quotation.

Hip Thruster Bar

Short, padded hip-thrust bar compatible with Olympic plates.

Full specifications, packaging information, applicable certifications and current lead time are available with a formal quotation.

Single Leg Squat Rack

Single-leg squat stand with an adjustable padded roller.

Full specifications, packaging information, applicable certifications and current lead time are available with a formal quotation.

Power T Handle

Plate-loading T-handle for strength exercises with adjustable loading positions.

Full specifications, packaging information, applicable certifications and current lead time are available with a formal quotation.

Farmers Walk Bar

Model: RSPRO1052

Plate-loadable farmer's walk bars with knurled handles.

Full specifications, packaging information, applicable certifications and current lead time are available with a formal quotation.

Safety Squat Bar

Padded safety-squat bar with forward handles and Olympic sleeves.

Full specifications, packaging information, applicable certifications and current lead time are available with a formal quotation.

Olympic Open Trap Bar

Open trap bar with two handle heights for lifting and carrying.

Full specifications, packaging information, applicable certifications and current lead time are available with a formal quotation.

Glute Ham Developer

Adjustable glute-ham developer for posterior-chain and abdominal exercises.

Full specifications, packaging information, applicable certifications and current lead time are available with a formal quotation.

Utility Bench 2.0

Flat training bench with a wide rear base and upright storage.

Full specifications, packaging information, applicable certifications and current lead time are available with a formal quotation.

Adjustable Bench 2.0

Adjustable bench with ten backrest positions and three seat angles.

Full specifications, packaging information, applicable certifications and current lead time are available with a formal quotation.

Glute Shaper 2.0

Padded hip-thrust bench for bodyweight, band and barbell exercises.

Full specifications, packaging information, applicable certifications and current lead time are available with a formal quotation.

Competition Combo Rack

Competition-style squat and press rack with adjustable supports.

Full specifications, packaging information, applicable certifications and current lead time are available with a formal quotation.

CPU Weight Plate

Model: X.S.028A / X.S.028B / X.S.028C / X.S.028D / X.S.028E

Weight plates for adjusting barbell loads across exercises and training stages. Check bore size, weight and bar compatibility before ordering.

Full specifications, packaging information, applicable certifications and current lead time are available with a formal quotation.

Stainless Steel Hand Grips Weight Plate

Model: X.S.032A / X.S.032B / X.S.032C / X.S.032D / X.S.032E

Weight plates for adjusting barbell loads across exercises and training stages. Check bore size, weight and bar compatibility before ordering.

Full specifications, packaging information, applicable certifications and current lead time are available with a formal quotation.

Electroplated Dumbbell

Model: X.S.033A / X.S.033B / X.S.033C / X.S.033D / X.S.033E / X.S.033F / X.S.033G / X.S.033H / X.S.033I / X.S.033J / ...

Dumbbells for presses, rows and unilateral strength exercises. Independent handles allow paired or alternating work; choose weight, dimensions and material from the specifications.

Full specifications, packaging information, applicable certifications and current lead time are available with a formal quotation.

Rubber Dumbbell

Model: X.S.010A / X.S.010B / X.S.010C / X.S.010D / X.S.010E / X.S.010F / X.S.010G / X.S.010H / X.S.010I / X.S.010J / ...

Dumbbells for presses, rows and unilateral strength exercises. Independent handles allow paired or alternating work; choose weight, dimensions and material from the specifications.

Full specifications, packaging information, applicable certifications and current lead time are available with a formal quotation.

Multifunction Gym Bench

Model: X.M.001A

A bench for support during dumbbell and bodyweight exercises, including presses and rows. Check dimensions, adjustment range and the stated load rating.

Full specifications, packaging information, applicable certifications and current lead time are available with a formal quotation.

Adjustable Gym Bench

Model: X.M.016

A bench for support during dumbbell and bodyweight exercises, including presses and rows. Check dimensions, adjustment range and the stated load rating.

Full specifications, packaging information, applicable certifications and current lead time are available with a formal quotation.

Dumbbell Bench

Model: X.Y.009

A bench for support during dumbbell and bodyweight exercises, including presses and rows. Check dimensions, adjustment range and the stated load rating.

Full specifications, packaging information, applicable certifications and current lead time are available with a formal quotation.

Rubber Weight Plate

Model: X.M.020A / X.M.020B / X.M.020C / X.M.020D / X.M.020E

Weight plates for adjusting barbell loads across exercises and training stages. Check bore size, weight and bar compatibility before ordering.

Full specifications, packaging information, applicable certifications and current lead time are available with a formal quotation.

Rubber Hand Grips Weight Plate

Model: J.M.076B / J.M.076C / J.M.076D / J.M.076E / J.M.076F / J.M.076G

Weight plates for adjusting barbell loads across exercises and training stages. Check bore size, weight and bar compatibility before ordering.

Full specifications, packaging information, applicable certifications and current lead time are available with a formal quotation.

Barbell Set Body Pump

Model: X.S.023A

A barbell set for group strength and circuit sessions. Confirm total weight, plate combinations and included collars in the final packing list.

Full specifications, packaging information, applicable certifications and current lead time are available with a formal quotation.

Athletic Olympic Bar (Women)

Model: X.S.007A

A bar for plate-loaded strength exercises. Choose grip diameter, length and bearing configuration and confirm load rating and intended use.

Full specifications, packaging information, applicable certifications and current lead time are available with a formal quotation.

Athletic Olympic Bar · X.S.007B

Model: X.S.007B

A bar for plate-loaded strength exercises. Choose grip diameter, length and bearing configuration and confirm load rating and intended use.

Full specifications, packaging information, applicable certifications and current lead time are available with a formal quotation.

Athletic Olympic Bar · X.S.007C

Model: X.S.007C

A bar for plate-loaded strength exercises. Choose grip diameter, length and bearing configuration and confirm load rating and intended use.

Full specifications, packaging information, applicable certifications and current lead time are available with a formal quotation.

Athletic Olympic Bar · X.S.007D

Model: X.S.007D

A bar for plate-loaded strength exercises. Choose grip diameter, length and bearing configuration and confirm load rating and intended use.

Full specifications, packaging information, applicable certifications and current lead time are available with a formal quotation.

Bow Barbell

Model: X.S.003

A shaped training bar offering alternative grip positions for lifts and carries. Check frame dimensions, handles and plate compatibility.

Full specifications, packaging information, applicable certifications and current lead time are available with a formal quotation.

Bench Press Bar

Model: X.S.025

A bar for plate-loaded strength exercises. Choose grip diameter, length and bearing configuration and confirm load rating and intended use.

Full specifications, packaging information, applicable certifications and current lead time are available with a formal quotation.

Hex Training Bar

Model: J.M.077

A shaped training bar offering alternative grip positions for lifts and carries. Check frame dimensions, handles and plate compatibility.

Full specifications, packaging information, applicable certifications and current lead time are available with a formal quotation.

PU Barbell(Straight)

Model: J.M.290AA / J.M.290BA / J.M.290CA / J.M.290DA / J.M.290EA

A fixed-weight barbell for selecting a load without changing plates. Choose straight or curl form for the intended movement and check model colours and weights.

Full specifications, packaging information, applicable certifications and current lead time are available with a formal quotation.

PU Barbell(Curl)

Model: J.M.290AB / J.M.290BB / J.M.290CB / J.M.290DB / J.M.290EB

A fixed-weight barbell for selecting a load without changing plates. Choose straight or curl form for the intended movement and check model colours and weights.

Full specifications, packaging information, applicable certifications and current lead time are available with a formal quotation.

Bone Shape Dumbbell

Model: J.T.003A / J.T.003B / J.T.003C / J.T.003D / J.T.003E / J.T.003F / J.T.003G

Dumbbells for presses, rows and unilateral strength exercises. Independent handles allow paired or alternating work; choose weight, dimensions and material from the specifications.

Full specifications, packaging information, applicable certifications and current lead time are available with a formal quotation.

5KG Adjustable Dumbbell Set

Model: J.S.112

Adjustable dumbbells use removable weights to vary individual loads. Check set weight separately from each dumbbell's adjustment range and ensure secure assembly.

Full specifications, packaging information, applicable certifications and current lead time are available with a formal quotation.

10KG Adjustable Dumbbell Set

Model: J.S.115

Adjustable dumbbells use removable weights to vary individual loads. Check set weight separately from each dumbbell's adjustment range and ensure secure assembly.

Full specifications, packaging information, applicable certifications and current lead time are available with a formal quotation.

Dumbbell

Model: F.S.005AA / F.S.005AB / F.S.005AC / F.S.005AD / F.S.005AF / F.S.005AE

Dumbbells for presses, rows and unilateral strength exercises. Independent handles allow paired or alternating work; choose weight, dimensions and material from the specifications.

Full specifications, packaging information, applicable certifications and current lead time are available with a formal quotation.

Silicone Dumbbell

Model: J.S.145A / J.S.145B

Dumbbells for presses, rows and unilateral strength exercises. Independent handles allow paired or alternating work; choose weight, dimensions and material from the specifications.

Full specifications, packaging information, applicable certifications and current lead time are available with a formal quotation.

Soft Sand Dumbbell

Model: F.S.008A / F.S.008B

Dumbbells for presses, rows and unilateral strength exercises. Independent handles allow paired or alternating work; choose weight, dimensions and material from the specifications.

Full specifications, packaging information, applicable certifications and current lead time are available with a formal quotation.

Reactive Catch

Colour-coded reaction tool for catching and coordination drills.

Full specifications, packaging information, applicable certifications and current lead time are available with a formal quotation.

Adjustable Training Agility Hurdle

Foldable PVC hurdles with adjustable heights for agility training.

Full specifications, packaging information, applicable certifications and current lead time are available with a formal quotation.

Octagonal Agility Circle

Connectable octagonal rings for footwork and movement drills.

Full specifications, packaging information, applicable certifications and current lead time are available with a formal quotation.

Premium Agility Rip Cones

Stackable, connectable cones for multi-height agility obstacles.

Full specifications, packaging information, applicable certifications and current lead time are available with a formal quotation.

V-Shaped Agility Hurdles

Connectable flat agility ladder for foot-speed and coordination drills.

Full specifications, packaging information, applicable certifications and current lead time are available with a formal quotation.

Triangular Agility Circle

Connectable triangular rings for agility and positioning exercises.

Full specifications, packaging information, applicable certifications and current lead time are available with a formal quotation.

Marker Cones

Lightweight stacking marker cones for defining training zones.

Full specifications, packaging information, applicable certifications and current lead time are available with a formal quotation.

Marker Disc

Low-profile marker discs for footwork and direction-change drills.

Full specifications, packaging information, applicable certifications and current lead time are available with a formal quotation.

Round Agility Circle

Round agility rings for foot placement and coordination exercises.

Full specifications, packaging information, applicable certifications and current lead time are available with a formal quotation.

Foldable Hexagonal Agility Ring

Foldable hexagonal rings with connecting clips for agility layouts.

Full specifications, packaging information, applicable certifications and current lead time are available with a formal quotation.

Agility Poles

Model: RSPRO2013

Agility poles with weighted rubber bases and protective end caps.

Full specifications, packaging information, applicable certifications and current lead time are available with a formal quotation.

Tomahawk Ball Sack

Model: RSPRO2042

Adjustable carrier for ball-based rotational exercises; ball not included.

Full specifications, packaging information, applicable certifications and current lead time are available with a formal quotation.

Super Reaction Ball

Six-lobed reaction ball for unpredictable bounce and catching drills.

Full specifications, packaging information, applicable certifications and current lead time are available with a formal quotation.

Adjustable Training Tube

Model: RSPRO2053

Adjustable resistance-tube kit with handles and movable fixing straps.

Full specifications, packaging information, applicable certifications and current lead time are available with a formal quotation.

Rubber Hip Bands

Model: RSPRO2046_01

Non-slip hip bands in three resistance levels.

Full specifications, packaging information, applicable certifications and current lead time are available with a formal quotation.

Textile Resistance Band

Model: RSPRO2038

Textile resistance band with a fixing sleeve for running drills.

Full specifications, packaging information, applicable certifications and current lead time are available with a formal quotation.

Strongman Bag

Model: RSPRO2027_01

Handled weighted ball for rotational training; handles are removable.

Full specifications, packaging information, applicable certifications and current lead time are available with a formal quotation.

Glute Ham Roller

Four-wheel roller for leg curls and core exercises.

Full specifications, packaging information, applicable certifications and current lead time are available with a formal quotation.

Exercise Sliders

Dual-surface sliders for controlled core exercises on different floor types.

Full specifications, packaging information, applicable certifications and current lead time are available with a formal quotation.

Collapsible Ab Roller

Foldable steel ab roller with two rolling-height settings.

Full specifications, packaging information, applicable certifications and current lead time are available with a formal quotation.

3-In-1 Parallettes

Three-grip parallettes offering different handle diameters.

Full specifications, packaging information, applicable certifications and current lead time are available with a formal quotation.

Women'S Weight Vest

Women's weighted vest for running, bodyweight and agility drills.

Full specifications, packaging information, applicable certifications and current lead time are available with a formal quotation.

Men'S Weight Vest

Men's weighted vest for running, bodyweight and agility drills.

Full specifications, packaging information, applicable certifications and current lead time are available with a formal quotation.

H-Type Parallel Bars

Stable H-shaped parallel supports for bodyweight exercises.

Full specifications, packaging information, applicable certifications and current lead time are available with a formal quotation.

Gluteus Box

Model: RSPRO2033

Dense foam box for hip-thrust and glute-focused exercises.

Full specifications, packaging information, applicable certifications and current lead time are available with a formal quotation.

3-In-1 Foam Plyo Box

Model: RSPRO2045

Padded three-in-one plyometric box with multiple training heights.

Full specifications, packaging information, applicable certifications and current lead time are available with a formal quotation.

Foam Plyobox Set

Model: RSPRO2034 - 01

Stackable padded plyometric boxes with interlocking straps.

Full specifications, packaging information, applicable certifications and current lead time are available with a formal quotation.

Core Trainer

Model: X.C.011

A sliding trainer with resistance cords for core control and push-pull exercises. Match movement range to ability and confirm the supplied cord configuration.

Full specifications, packaging information, applicable certifications and current lead time are available with a formal quotation.

Suspension Trainer

Model: X.F.009

A suspension setup for bodyweight pushing, pulling and core exercises. Adjust stance to vary the movement and follow anchoring and installation instructions.

Full specifications, packaging information, applicable certifications and current lead time are available with a formal quotation.

Gym Step · X.B.003A

Model: X.B.003A

A step for aerobic routines and lower-body coordination drills. Platform dimensions and height options vary by model; check that supports are correctly fitted.

Full specifications, packaging information, applicable certifications and current lead time are available with a formal quotation.

Gym Step · X.B.010

Model: X.B.010A / F.B.006A

A step for aerobic routines and lower-body coordination drills. Platform dimensions and height options vary by model; check that supports are correctly fitted.

Full specifications, packaging information, applicable certifications and current lead time are available with a formal quotation.

Plyo Boxes Set

Model: X.B.002

A box or platform for step-ups, crossings and jumping drills. Select an appropriate height and check placement, orientation and landing space before training.

Full specifications, packaging information, applicable certifications and current lead time are available with a formal quotation.

Hip Thrust Box

Model: X.Y.014

A support for hip-thrust and floor exercises within glute and core sessions. Select the listed height and shape; confirm any separate loading equipment.

Full specifications, packaging information, applicable certifications and current lead time are available with a formal quotation.

Ankle Weight

Model: X.M.022A / X.M.022B / X.M.022C / X.M.022D

Wearable ankle weights for walking or controlled lower-body exercises. Choose a suitable load and ensure secure fitting before use.

Full specifications, packaging information, applicable certifications and current lead time are available with a formal quotation.

Weighted Vest

Model: X.M.023A / X.M.023B / X.M.023C / X.M.023D

A weighted vest for bodyweight exercises and conditioning. Confirm the load configuration, fit and fastening system for the selected model.

Full specifications, packaging information, applicable certifications and current lead time are available with a formal quotation.

Functional Training Barrel Stability Trainer

Model: X.B.004

A spring-supported platform for standing control and balance drills. Confirm spring configuration, user-weight guidance and installation details.

Full specifications, packaging information, applicable certifications and current lead time are available with a formal quotation.

SKISHEEL PRO

Model: X.C.007

Sliders for floor-based core and lower-body exercises. Check that the contact surface is suitable for the flooring before use.

Full specifications, packaging information, applicable certifications and current lead time are available with a formal quotation.

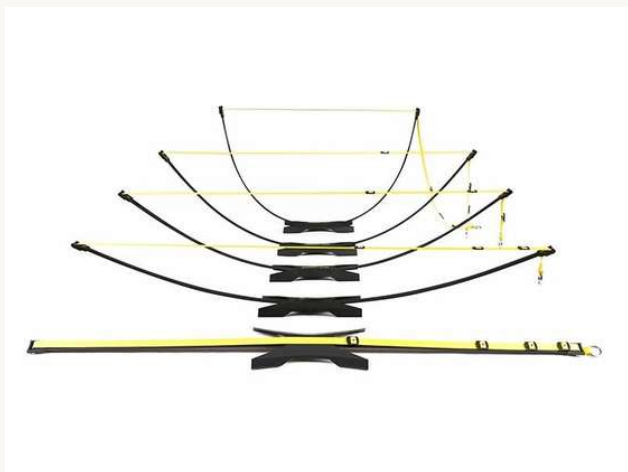

Agility Ladder · X.A.001

Model: X.A.001

Agility equipment for footwork, stride and direction-change drills. Arrange routes for the available space and check the listed length and component count.

Full specifications, packaging information, applicable certifications and current lead time are available with a formal quotation.

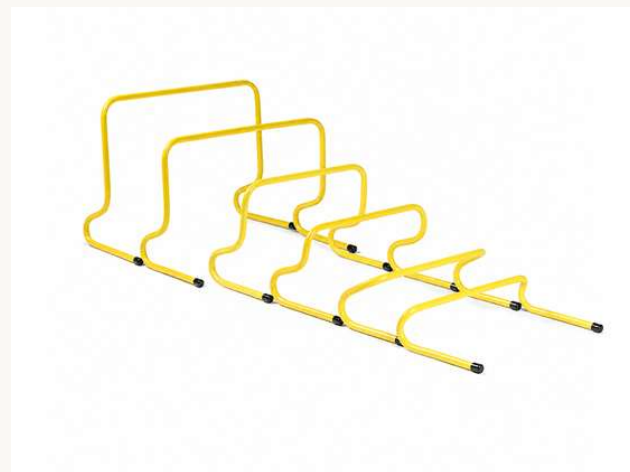

Hurdle

Model: X.A.002

Hurdles for stepping, knee-lift and agility drills. Set a suitable route and check height, component connections and landing space.

Full specifications, packaging information, applicable certifications and current lead time are available with a formal quotation.

Mini Hurdle

Model: X.A.006A / X.A.006B / X.A.006C / X.A.006D / X.A.006E / X.A.006F

Hurdles for stepping, knee-lift and agility drills. Set a suitable route and check height, component connections and landing space.

Full specifications, packaging information, applicable certifications and current lead time are available with a formal quotation.

Agility Cone Set

Model: X.A.004AA

Markers for start and finish points, turns and exercise boundaries. Select colour, quantity and size for the training layout.

Full specifications, packaging information, applicable certifications and current lead time are available with a formal quotation.

Agility Ladder · X.A.007

Model: X.A.007 / X.A.007A

Agility equipment for footwork, stride and direction-change drills. Arrange routes for the available space and check the listed length and component count.

Full specifications, packaging information, applicable certifications and current lead time are available with a formal quotation.

Adjustable Training Hurdle

Model: X.M.021A

Hurdles for stepping, knee-lift and agility drills. Set a suitable route and check height, component connections and landing space.

Full specifications, packaging information, applicable certifications and current lead time are available with a formal quotation.

Pro Power Chute

Model: X.R.017A / X.R.017B

A running parachute for resisted running drills. Confirm canopy size and belt attachment and allow a clear running area.

Full specifications, packaging information, applicable certifications and current lead time are available with a formal quotation.

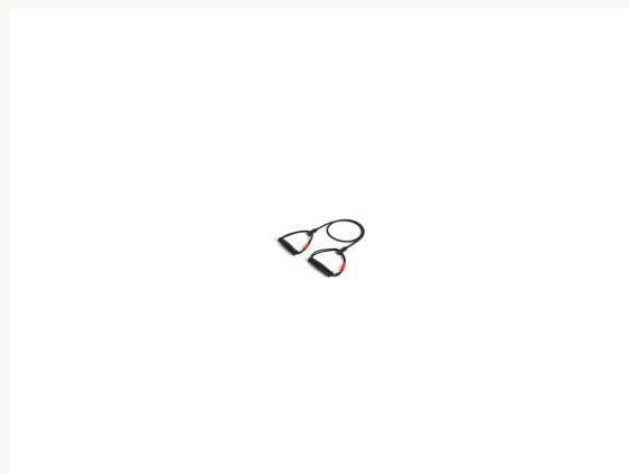

Hip Circle Loop Band

Model: X.R.001A / X.R.001B / X.R.001C

A closed-loop resistance band for warm-ups and suitable upper- or lower-body exercises. Choose resistance and loop dimensions and inspect before use.

Full specifications, packaging information, applicable certifications and current lead time are available with a formal quotation.

Resistance Rope With Handle · X.R.006

Model: X.R.006A / X.R.006B / X.R.006C

A resistance tube with handles for push-pull and upper-body exercises. Select length, tube size and resistance and check connections before training.

Full specifications, packaging information, applicable certifications and current lead time are available with a formal quotation.

Coordinator Trainer

Model: X.R.007

A cord-and-strap setup for resisted movement and coordination drills. Confirm included components, connections and required training space.

Full specifications, packaging information, applicable certifications and current lead time are available with a formal quotation.

Body Power Bungee Cord

Model: X.R.008

A cord-and-strap setup for resisted movement and coordination drills. Confirm included components, connections and required training space.

Full specifications, packaging information, applicable certifications and current lead time are available with a formal quotation.

Resistance Rope With Handle · X.R.013

Model: X.R.013A / X.R.013B / X.R.013C / X.R.013D

A resistance tube with handles for push-pull and upper-body exercises. Select length, tube size and resistance and check connections before training.

Full specifications, packaging information, applicable certifications and current lead time are available with a formal quotation.

Leg extension trainer

Model: J.R.010A / J.R.010B / J.R.010C / J.R.010D

A cord-and-strap setup for resisted movement and coordination drills. Confirm included components, connections and required training space.

Full specifications, packaging information, applicable certifications and current lead time are available with a formal quotation.

Parallel Bars

Model: X.A.010

Bars providing raised hand positions for bodyweight support and upper-body exercises. Select height for the movement and check stability and spacing.

Full specifications, packaging information, applicable certifications and current lead time are available with a formal quotation.

Vibration Bar

Model: X.C.009A / X.C.009B / X.C.009C

An oscillating bar for rhythmic body-control, core and upper-body drills. Confirm length and intended use and allow clearance around both ends.

Full specifications, packaging information, applicable certifications and current lead time are available with a formal quotation.

Pro Medicine Ball Rebounder

Model: J.M.015C

A rebound target for medicine-ball throwing and catching drills. Adjust the angle for the session and confirm suitable balls, distance and anchoring.

Full specifications, packaging information, applicable certifications and current lead time are available with a formal quotation.

Plyometrics Box

Model: J.A.002A

A box or platform for step-ups, crossings and jumping drills. Select an appropriate height and check placement, orientation and landing space before training.

Full specifications, packaging information, applicable certifications and current lead time are available with a formal quotation.

Weighted Hip Thrust Bag

Model: F.S.015A / F.S.015B / F.S.015C / F.S.015D

A weighted bag for hip-thrust exercises. Select an appropriate weight and maintain stable placement during the movement.

Full specifications, packaging information, applicable certifications and current lead time are available with a formal quotation.

AB Wheel · J.T.331

Model: J.T.331A

An ab wheel for controlled roll-out and return exercises. Check wheel and handle connections and keep movement within a manageable range.

Full specifications, packaging information, applicable certifications and current lead time are available with a formal quotation.

AB Wheel · F.C.003

Model: F.C.003A / F.C.003B

An ab wheel for controlled roll-out and return exercises. Check wheel and handle connections and keep movement within a manageable range.

Full specifications, packaging information, applicable certifications and current lead time are available with a formal quotation.

Mini Step

Model: F.M.002A

A step for aerobic routines and lower-body coordination drills. Platform dimensions and height options vary by model; check that supports are correctly fitted.

Full specifications, packaging information, applicable certifications and current lead time are available with a formal quotation.

Small Step

Model: J.M.219

A step for aerobic routines and lower-body coordination drills. Platform dimensions and height options vary by model; check that supports are correctly fitted.

Full specifications, packaging information, applicable certifications and current lead time are available with a formal quotation.

Resistance Band With Handle

Model: F.R.006A / F.R.006B

A resistance tube with handles for push-pull and upper-body exercises. Select length, tube size and resistance and check connections before training.

Full specifications, packaging information, applicable certifications and current lead time are available with a formal quotation.

Mini Loop Band

Model: J.R.156A / J.R.156B / J.R.156C / J.R.156D

A closed-loop resistance band for warm-ups and suitable upper- or lower-body exercises. Choose resistance and loop dimensions and inspect before use.

Full specifications, packaging information, applicable certifications and current lead time are available with a formal quotation.

AB Wheel · J.C.055

Model: J.C.055A

An ab wheel for controlled roll-out and return exercises. Check wheel and handle connections and keep movement within a manageable range.

Full specifications, packaging information, applicable certifications and current lead time are available with a formal quotation.

Half Finger Boxing Gloves

Model: RSPRO3002 - 01

Half-finger training gloves with layered foam padding.

Full specifications, packaging information, applicable certifications and current lead time are available with a formal quotation.

Waist Target

Model: RSPRO3003

Padded waist target with adjustable fastening for striking drills.

Full specifications, packaging information, applicable certifications and current lead time are available with a formal quotation.

Boxing Kicking Pad

Padded kicking target with a reinforced grip and adjustable straps.

Full specifications, packaging information, applicable certifications and current lead time are available with a formal quotation.

Elite Boxing Gloves

Model: RSPRO3001 - 01

Padded boxing gloves with a ventilated palm for bag and daily training.

Full specifications, packaging information, applicable certifications and current lead time are available with a formal quotation.

Boxing Headgear

Model: RSPRO3004

Padded boxing headgear with ear, chin and cheek coverage.

Full specifications, packaging information, applicable certifications and current lead time are available with a formal quotation.

Boxing Mitts

Boxing focus mitts with layered padding and a ventilated construction.

Full specifications, packaging information, applicable certifications and current lead time are available with a formal quotation.

Boxing Hand Wraps

Model: RSPRO301 3 - 01

Breathable hand wraps for use during boxing training.

Full specifications, packaging information, applicable certifications and current lead time are available with a formal quotation.

Air Strike Dumbbell

Model: RSPRO301 1 - 01

Compact hand weights for shadowboxing drills.

Full specifications, packaging information, applicable certifications and current lead time are available with a formal quotation.

Boxing Shin Guards

Adjustable padded shin and instep guards for combat training.

Full specifications, packaging information, applicable certifications and current lead time are available with a formal quotation.

Boxing Leg Target

Heavy padded leg target with reinforced handles for kicking drills.

Full specifications, packaging information, applicable certifications and current lead time are available with a formal quotation.

Professional Swivel

Metal swivel attachment for a speed ball or other compatible hanging equipment.

Full specifications, packaging information, applicable certifications and current lead time are available with a formal quotation.

Agility Bar

Padded training sticks for boxing defence, footwork and reaction drills.

Full specifications, packaging information, applicable certifications and current lead time are available with a formal quotation.

Pingpong Punching Pads

Handheld paddle targets for boxing accuracy and reaction drills.

Full specifications, packaging information, applicable certifications and current lead time are available with a formal quotation.

Standing Punching Bag

Freestanding punching bag with a base designed for sand or water filling.

Full specifications, packaging information, applicable certifications and current lead time are available with a formal quotation.

Adjustable Speed Ball Platform

Height-adjustable speed-ball platform with a steel support structure.

Full specifications, packaging information, applicable certifications and current lead time are available with a formal quotation.

Teardrop Boxing Sandbag

Inflatable pear-shaped speed ball for timing and coordination drills.

Full specifications, packaging information, applicable certifications and current lead time are available with a formal quotation.

Hanging Boxing Sandbag

Model: RSPRO301 5 - 01

Hanging punching bag with nylon suspension straps.

Full specifications, packaging information, applicable certifications and current lead time are available with a formal quotation.

Ball Shaped Punching Bag

Round hanging bag for hook, rhythm and combination drills.

Full specifications, packaging information, applicable certifications and current lead time are available with a formal quotation.

Teardrop Boxing Sandbag

Teardrop hanging bag for close-range boxing practice.

Full specifications, packaging information, applicable certifications and current lead time are available with a formal quotation.

Boxing Bag

Model: X.S.009A / X.S.009B

A punching bag for striking drills. Select weight for the space and confirm hanging hardware, support capacity and clearance before installation.

Full specifications, packaging information, applicable certifications and current lead time are available with a formal quotation.

Boxing Training Gloves

Model: X.Y.022 / X.M.025

Boxing gloves for hand coverage during training. Select the listed ounce weight and fit for the session, and confirm appropriate use with hand wraps.

Full specifications, packaging information, applicable certifications and current lead time are available with a formal quotation.

Boxing Focus Mitts

Model: X.M.026

Focus mitts for partner work on punch placement, rhythm and combinations. Ensure secure fitting and match striking intensity to the session.

Full specifications, packaging information, applicable certifications and current lead time are available with a formal quotation.

Boxing Kick Pads

Model: X.M.027

A target pad for kicks and combination drills in coached or partner sessions. Check holding and fastening arrangements and use appropriate intensity.

Full specifications, packaging information, applicable certifications and current lead time are available with a formal quotation.

Boxing Straps

Model: X.M.028

Hand wraps for pre-training hand coverage. Use the listed length and width and avoid wrapping tightly enough to restrict circulation.

Full specifications, packaging information, applicable certifications and current lead time are available with a formal quotation.

Punching Bag

Model: J.S.017

A punching bag for striking drills. Select weight for the space and confirm hanging hardware, support capacity and clearance before installation.

Full specifications, packaging information, applicable certifications and current lead time are available with a formal quotation.

Boxing Rings(No Base)

Model: Q.0.232A / Q.0.232B / Q.0.232C / Q.0.232D / Q.0.232E / Q.0.232F / Q.0.232G

A boxing ring for a defined training and sparring area. Confirm base configuration, dimensions and installation conditions before ordering.

Full specifications, packaging information, applicable certifications and current lead time are available with a formal quotation.

Boxing Rings(With Base)

Model: Q.0.233A / Q.0.233B / Q.0.233C / Q.0.233D / Q.0.233E / Q.0.233F / Q.0.233G

A boxing ring for a defined training and sparring area. Confirm base configuration, dimensions and installation conditions before ordering.

Full specifications, packaging information, applicable certifications and current lead time are available with a formal quotation.

MMA Cage(No Base)

Model: J.Y.003A / J.Y.003B / J.Y.003C / J.Y.003D / J.Y.003E / J.Y.003F / J.Y.003G

An enclosure for an MMA training area. Select dimensions for the space and confirm base form, panel count and installation configuration.

Full specifications, packaging information, applicable certifications and current lead time are available with a formal quotation.

MMA Cage(With Base)

Model: J.Y.014A / J.Y.014B / J.Y.014C / J.Y.014D / J.Y.014E / J.Y.014F / J.Y.014G

An enclosure for an MMA training area. Select dimensions for the space and confirm base form, panel count and installation configuration.

Full specifications, packaging information, applicable certifications and current lead time are available with a formal quotation.

Camo Peanut Massage Ball

Textured peanut-shaped massage ball for targeted rolling.

Full specifications, packaging information, applicable certifications and current lead time are available with a formal quotation.

Camo Massage Ball

Textured camouflage massage ball for self-massage exercises.

Full specifications, packaging information, applicable certifications and current lead time are available with a formal quotation.

Massage Roller-Ur

Contoured massage roller for controlled self-massage.

Full specifications, packaging information, applicable certifications and current lead time are available with a formal quotation.

Pilates Ring

Pilates ring for resistance and positioning exercises.

Full specifications, packaging information, applicable certifications and current lead time are available with a formal quotation.

Suction Cup Fascia Ball

Model: RSPRO4008_01

Suction-cup massage ball for targeted pressure exercises.

Full specifications, packaging information, applicable certifications and current lead time are available with a formal quotation.

Spines Spine Massage Stick

Segmented massage stick for controlled rolling along muscle areas.

Full specifications, packaging information, applicable certifications and current lead time are available with a formal quotation.

Massage Roller-Tp

Model: RSPRO4001_01

Textured hollow massage roller for warm-up and recovery routines.

Full specifications, packaging information, applicable certifications and current lead time are available with a formal quotation.

Yoga Block

Lightweight yoga block with rounded edges for supported poses.

Full specifications, packaging information, applicable certifications and current lead time are available with a formal quotation.

Acupoint Massage

Handheld massage tool for targeted pressure application.

Full specifications, packaging information, applicable certifications and current lead time are available with a formal quotation.

Bearing Massage Bar

Bearing-mounted massage bar for smooth rolling movements.

Full specifications, packaging information, applicable certifications and current lead time are available with a formal quotation.

Elevated Foam Roller

Raised massage roller with a supporting frame.

Full specifications, packaging information, applicable certifications and current lead time are available with a formal quotation.

Multifunctional V Rack

Multi-position support frame for bodyweight and stability exercises.

Full specifications, packaging information, applicable certifications and current lead time are available with a formal quotation.

Focus Series Mat

Model: RSPRO4036 - 01

Dense FOCUS training mat with hanging holes and a grippy surface.

Full specifications, packaging information, applicable certifications and current lead time are available with a formal quotation.

Pilates Ball

Model: RSPRO4023 - 01

Small Pilates ball for positioning, resistance and core exercises.

Full specifications, packaging information, applicable certifications and current lead time are available with a formal quotation.

Yoga Stretch Strap-12M

Model: RSPRO4017

Stretching strap with twelve holding positions.

Full specifications, packaging information, applicable certifications and current lead time are available with a formal quotation.

Spiral Training Strap

Model: RSPRO4018

Spiral-training strap for controlled rotational exercises.

Full specifications, packaging information, applicable certifications and current lead time are available with a formal quotation.

Fitness Training Mat

Model: RSPRO4048

Hanging fitness mat with a layered foam construction.

Full specifications, packaging information, applicable certifications and current lead time are available with a formal quotation.

Peanut Exercise Ball

Peanut-shaped exercise ball that limits rolling to one plane.

Full specifications, packaging information, applicable certifications and current lead time are available with a formal quotation.

Apple Shape Yoga Ball

Ring-shaped exercise ball for balance and core exercises.

Full specifications, packaging information, applicable certifications and current lead time are available with a formal quotation.

Swiss Ball

Model: RSPRO4026 - 01

Swiss exercise ball for core, balance and warm-up routines.

Full specifications, packaging information, applicable certifications and current lead time are available with a formal quotation.

Yoga Portable Bandage

Model: RSPRO4039

Two-in-one yoga stretching strap and mat carrier.

Full specifications, packaging information, applicable certifications and current lead time are available with a formal quotation.

Coconut Fiber Frosted Mat

Model: RSPRO4058_01

Textured yoga mat incorporating coconut fibre and positioning lines.

Full specifications, packaging information, applicable certifications and current lead time are available with a formal quotation.

Round Balance Board

Round wooden balance board for multi-directional balance practice.

Full specifications, packaging information, applicable certifications and current lead time are available with a formal quotation.

Pu Balance Pad

Dense foam balance pad for stability and coordination exercises.

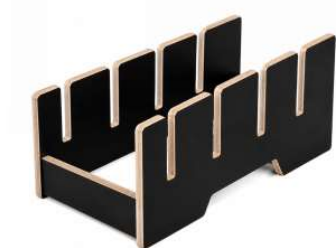

Full specifications, packaging information, applicable certifications and current lead time are available with a formal quotation.

Thickened Half Balance Ball

Thickened half-dome balance trainer with a textured surface.

Full specifications, packaging information, applicable certifications and current lead time are available with a formal quotation.

Balance Board Rack

Slotted storage rack for organising compatible balance boards.

Full specifications, packaging information, applicable certifications and current lead time are available with a formal quotation.

Surf Balance Board

Board-and-roller set for balance and core training.

Full specifications, packaging information, applicable certifications and current lead time are available with a formal quotation.

Sanddune Stepper

Dual-level foam stepper for balance and controlled movement exercises.

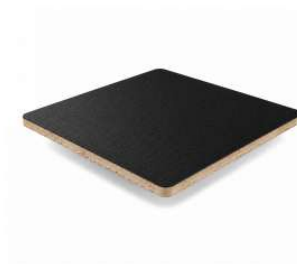

Full specifications, packaging information, applicable certifications and current lead time are available with a formal quotation.

Arc Spine Corrector

Curved Pilates support for controlled stretching and positioning.

Full specifications, packaging information, applicable certifications and current lead time are available with a formal quotation.

Square Balance Board

Square wooden balance board for directional stability exercises.

Full specifications, packaging information, applicable certifications and current lead time are available with a formal quotation.

Limbs Optimize The Deck

Inclined decks for adjusting foot positioning during training.

Full specifications, packaging information, applicable certifications and current lead time are available with a formal quotation.

Rectangle Balance Board

Rectangular balance board for standing stability exercises.

Full specifications, packaging information, applicable certifications and current lead time are available with a formal quotation.

Massage Table

Model: X.Y.005A / X.Y.005B

A support table for massage and relaxation areas. Check tabletop dimensions, colour and the stated load rating against the intended room layout.

Full specifications, packaging information, applicable certifications and current lead time are available with a formal quotation.

Balance Ball · X.B.001

Model: X.B.001A / X.B.001B

A domed support for balance, standing stability and coordination work. Follow inflation guidance and use it in a suitable supported training environment.

Full specifications, packaging information, applicable certifications and current lead time are available with a formal quotation.

Fitness Ball

Model: X.C.001AA / X.C.001BA / X.C.001CA

An exercise ball for floor support, core control and balance drills. Choose diameter for the user and movement, and check inflation and the training surface.

Full specifications, packaging information, applicable certifications and current lead time are available with a formal quotation.

High Density PVC Yoga Mat

Model: X.T.010A / X.T.010B / X.T.010C / X.T.010D

A mat for yoga, stretching and floor exercise. Select material, thickness and dimensions to suit the class and the user's preferences.

Full specifications, packaging information, applicable certifications and current lead time are available with a formal quotation.

TPE Yoga Mat · X.M.031

Model: X.M.031A / X.M.031B / X.M.031C / X.M.031D

A mat for yoga, stretching and floor exercise. Select material, thickness and dimensions to suit the class and the user's preferences.

Full specifications, packaging information, applicable certifications and current lead time are available with a formal quotation.

Exercise Mat

Model: J.M.254

A mat for floor exercise and stretching. Dimensions, thickness and any hanging arrangement depend on the model, allowing coordinated studio selection.

Full specifications, packaging information, applicable certifications and current lead time are available with a formal quotation.

Training Mat

Model: J.T.354C / J.T.354D

A mat for floor exercise and stretching. Dimensions, thickness and any hanging arrangement depend on the model, allowing coordinated studio selection.

Full specifications, packaging information, applicable certifications and current lead time are available with a formal quotation.

Foldable Gymnastic Mat

Model: X.T.015A / X.T.015B

A folding mat for floor exercises and flexible training-area layouts. Check open dimensions, fold arrangement and thickness for the selected model.

Full specifications, packaging information, applicable certifications and current lead time are available with a formal quotation.

Gymnastic Mat · X.T.016

Model: X.T.016A / X.T.016B

A mat for floor exercise and stretching. Dimensions, thickness and any hanging arrangement depend on the model, allowing coordinated studio selection.

Full specifications, packaging information, applicable certifications and current lead time are available with a formal quotation.

Vibrating Massage Ball

Model: X.F.001

A vibrating massage tool for gentle pre- or post-exercise relaxation. Follow model-specific settings and limits, and avoid injured areas.

Full specifications, packaging information, applicable certifications and current lead time are available with a formal quotation.

Vibrating Massage Roller

Model: X.F.002

A vibrating massage tool for gentle pre- or post-exercise relaxation. Follow model-specific settings and limits, and avoid injured areas.

Full specifications, packaging information, applicable certifications and current lead time are available with a formal quotation.

Vibrating Peanut Ball

Model: X.F.003

A vibrating massage tool for gentle pre- or post-exercise relaxation. Follow model-specific settings and limits, and avoid injured areas.

Full specifications, packaging information, applicable certifications and current lead time are available with a formal quotation.

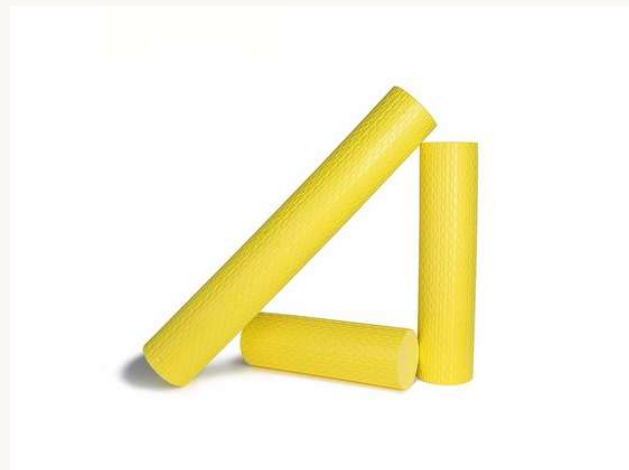

Muscle Relaxation Roller

Model: X.F.005A / X.F.005B

A roller for gentle pre- and post-exercise self-massage. Choose length, diameter and surface texture from the model details and use controlled movements.

Full specifications, packaging information, applicable certifications and current lead time are available with a formal quotation.

EVA Foam Roller · X.F.006

Model: X.F.006A / X.F.006B / X.F.006C / X.F.006D / X.F.006E / X.F.006F

A roller for gentle pre- and post-exercise self-massage. Choose length, diameter and surface texture from the model details and use controlled movements.

Full specifications, packaging information, applicable certifications and current lead time are available with a formal quotation.

Semicircle Foam Roller · X.F.018

Model: X.F.018

A half-round roller offering an alternative support surface for mat-based stability and body-control exercises. Choose orientation and dimensions for the session.

Full specifications, packaging information, applicable certifications and current lead time are available with a formal quotation.

Foam Roller

Model: X.F.014A / X.F.014B

A rolling tool for gentle local self-massage, including seated foot work where appropriate. Apply only comfortable pressure.

Full specifications, packaging information, applicable certifications and current lead time are available with a formal quotation.

Yoga Stretch Strap

Model: X.F.016

A strap with selectable grip or loop positions for controlled stretching. Adjust reach comfortably and avoid forcing the movement.

Full specifications, packaging information, applicable certifications and current lead time are available with a formal quotation.

Massage Roller Stick · X.F.017

Model: X.F.017

A handheld massage stick for controlled local rolling before or after training. Handle and roller designs vary by model; apply gentle, even pressure.

Full specifications, packaging information, applicable certifications and current lead time are available with a formal quotation.

Bouncy Stretch Stick

Model: X.R.023A / X.R.023B / X.R.023C / X.R.023D

A flexible stick for assisted stretching and body-control drills. Select length for the intended movement and avoid excessive bending.

Full specifications, packaging information, applicable certifications and current lead time are available with a formal quotation.

Massage Ball Set

Model: X.Y.007

A ball for gentle local pressure and self-massage. Adjust body position to control contact and select size, material and texture from the model details.

Full specifications, packaging information, applicable certifications and current lead time are available with a formal quotation.

**Balance Pad · X.B.005**

Model: X.B.005 / X.B.008

A pad for standing balance, kneeling support and controlled floor exercises. Dimensions, material and any weight configuration depend on the model.

Full specifications, packaging information, applicable certifications and current lead time are available with a formal quotation.

**Balance Pad · X.T.019**

Model: X.T.019

A pad for standing balance, kneeling support and controlled floor exercises. Dimensions, material and any weight configuration depend on the model.

Full specifications, packaging information, applicable certifications and current lead time are available with a formal quotation.

**Balance Pad · X.B.007**

Model: X.B.007A / X.B.007B

A pad for standing balance, kneeling support and controlled floor exercises. Dimensions, material and any weight configuration depend on the model.

Full specifications, packaging information, applicable certifications and current lead time are available with a formal quotation.

**Multifunction Massage Roller**

Model: X.F.010

A rolling tool for gentle local self-massage, including seated foot work where appropriate. Apply only comfortable pressure.

Full specifications, packaging information, applicable certifications and current lead time are available with a formal quotation.

Mini Massage Gun · X.F.013

Model: X.F.013

A massage gun for gentle local relaxation around training sessions. Settings, battery runtime and heads depend on the model; it is not a substitute for medical treatment.

Full specifications, packaging information, applicable certifications and current lead time are available with a formal quotation.

Massage Gun

Model: X.F.015

A massage gun for gentle local relaxation around training sessions. Settings, battery runtime and heads depend on the model; it is not a substitute for medical treatment.

Full specifications, packaging information, applicable certifications and current lead time are available with a formal quotation.

Massage Stick · J.F.385

Model: J.F.385A / J.F.385B

A handheld massage stick for controlled local rolling before or after training. Handle and roller designs vary by model; apply gentle, even pressure.

Full specifications, packaging information, applicable certifications and current lead time are available with a formal quotation.

Mini Massage Stick

Model: F.F.068A

A handheld massage stick for controlled local rolling before or after training. Handle and roller designs vary by model; apply gentle, even pressure.

Full specifications, packaging information, applicable certifications and current lead time are available with a formal quotation.

Toe Arch Trainer

Model: F.T.044A / F.T.044B / F.T.044C / F.T.044D / F.T.044E

A toe-training tool for small gripping and contact movements during warm-ups. Select the listed size and material and avoid forced stretching.

Full specifications, packaging information, applicable certifications and current lead time are available with a formal quotation.

TPE Yoga Mat · F.T.035

Model: F.T.035A / F.T.035B / F.T.035

A mat for yoga, stretching and floor exercise. Select material, thickness and dimensions to suit the class and the user's preferences.

Full specifications, packaging information, applicable certifications and current lead time are available with a formal quotation.

TPE Yoga Mat · F.T.036

Model: F.T.036A / F.T.036B / F.T.036C

A mat for yoga, stretching and floor exercise. Select material, thickness and dimensions to suit the class and the user's preferences.

Full specifications, packaging information, applicable certifications and current lead time are available with a formal quotation.

PU & Rubber Yoga Mat

Model: J.T.358A / J.T.358B / J.T.358C

A mat for yoga, stretching and floor exercise. Select material, thickness and dimensions to suit the class and the user's preferences.

Full specifications, packaging information, applicable certifications and current lead time are available with a formal quotation.

Gymnastic Mat · F.T.033

Model: F.T.033A / F.T.033B / F.T.033C / F.T.033D

A folding mat for floor exercises and flexible training-area layouts. Check open dimensions, fold arrangement and thickness for the selected model.

Full specifications, packaging information, applicable certifications and current lead time are available with a formal quotation.

Widen Gymnastic Mat

Model: J.T.041F / J.T.041A / J.T.041B

A folding mat for floor exercises and flexible training-area layouts. Check open dimensions, fold arrangement and thickness for the selected model.

Full specifications, packaging information, applicable certifications and current lead time are available with a formal quotation.

Gymnastic Mat · F.T.034

Model: F.T.034B / F.T.034A

A folding mat for floor exercises and flexible training-area layouts. Check open dimensions, fold arrangement and thickness for the selected model.

Full specifications, packaging information, applicable certifications and current lead time are available with a formal quotation.

Gymnastic Mat · F.T.042

Model: F.T.042A / F.T.042B

A folding mat for floor exercises and flexible training-area layouts. Check open dimensions, fold arrangement and thickness for the selected model.

Full specifications, packaging information, applicable certifications and current lead time are available with a formal quotation.

Pro Semicircle Balance Ball

Model: F.B.001A / F.B.001C / F.B.001E / F.B.001F

A domed support for balance, standing stability and coordination work. Follow inflation guidance and use it in a suitable supported training environment.

Full specifications, packaging information, applicable certifications and current lead time are available with a formal quotation.

Balance Ball - F.B.011

Model: F.B.011A / F.B.011B

A domed support for balance, standing stability and coordination work. Follow inflation guidance and use it in a suitable supported training environment.

Full specifications, packaging information, applicable certifications and current lead time are available with a formal quotation.

Mini Balance Ball

Model: F.B.008A

A domed support for balance, standing stability and coordination work. Follow inflation guidance and use it in a suitable supported training environment.

Full specifications, packaging information, applicable certifications and current lead time are available with a formal quotation.

Peanut Balance Ball

Model: F.B.007A

A domed support for balance, standing stability and coordination work. Follow inflation guidance and use it in a suitable supported training environment.

Full specifications, packaging information, applicable certifications and current lead time are available with a formal quotation.

Massage Roller Stick · F.F.029

Model: F.F.029A / F.F.029C

A handheld massage stick for controlled local rolling before or after training. Handle and roller designs vary by model; apply gentle, even pressure.

Full specifications, packaging information, applicable certifications and current lead time are available with a formal quotation.

Olivary Massage Ball

Model: J.F.365A

A ball for gentle local pressure and self-massage. Adjust body position to control contact and select size, material and texture from the model details.

Full specifications, packaging information, applicable certifications and current lead time are available with a formal quotation.

Spiky Massage Ball

Model: F.F.011B

A ball for gentle local pressure and self-massage. Adjust body position to control contact and select size, material and texture from the model details.

Full specifications, packaging information, applicable certifications and current lead time are available with a formal quotation.

EVA Massage Ball · F.F.045

Model: F.F.045A

A ball for gentle local pressure and self-massage. Adjust body position to control contact and select size, material and texture from the model details.

Full specifications, packaging information, applicable certifications and current lead time are available with a formal quotation.

EVA Peanut Massage Ball

Model: F.F.053A

A peanut-shaped massage tool for gentle local contact before or after exercise. Choose size for the area and avoid direct heavy pressure on bony structures.

Full specifications, packaging information, applicable certifications and current lead time are available with a formal quotation.

Leg Massager · J.F.321

Model: J.F.321B

A ring or multi-roller tool for gentle local leg massage. Adjust contact by hand and confirm dimensions and roller configuration for the model.

Full specifications, packaging information, applicable certifications and current lead time are available with a formal quotation.

Leg Massager · F.F.061

Model: F.F.061A / F.F.061B

A ring or multi-roller tool for gentle local leg massage. Adjust contact by hand and confirm dimensions and roller configuration for the model.

Full specifications, packaging information, applicable certifications and current lead time are available with a formal quotation.

Massage Stick · F.F.046

Model: F.F.046A / F.F.046B

A curved massage tool for reaching areas such as the shoulder and back. Use gentle, comfortable pressure and avoid injured areas.

Full specifications, packaging information, applicable certifications and current lead time are available with a formal quotation.

Deep Tissue Massage Ball

Model: F.F.047A

A peanut-shaped massage tool for gentle local contact before or after exercise. Choose size for the area and avoid direct heavy pressure on bony structures.

Full specifications, packaging information, applicable certifications and current lead time are available with a formal quotation.

Rubber Lacrosse Massage Ball

Model: F.F.001A / F.F.001B / F.F.001C / F.F.001G

A ball for gentle local pressure and self-massage. Adjust body position to control contact and select size, material and texture from the model details.

Full specifications, packaging information, applicable certifications and current lead time are available with a formal quotation.

Silicone Peanut Massage Ball

Model: F.F.006A / F.F.006B / F.F.006C / F.F.006G

A peanut-shaped massage tool for gentle local contact before or after exercise. Choose size for the area and avoid direct heavy pressure on bony structures.

Full specifications, packaging information, applicable certifications and current lead time are available with a formal quotation.

EVA Foam Roller-Big Dots · J.F.179

Model: J.F.179A / J.F.179G / J.F.179B / J.F.179H / J.F.179K / J.F.179L

A roller for gentle pre- and post-exercise self-massage. Choose length, diameter and surface texture from the model details and use controlled movements.

Full specifications, packaging information, applicable certifications and current lead time are available with a formal quotation.

EVA Foam Roller · J.F.166

Model: J.F.166H / J.F.166I / J.F.166B

A roller for gentle pre- and post-exercise self-massage. Choose length, diameter and surface texture from the model details and use controlled movements.

Full specifications, packaging information, applicable certifications and current lead time are available with a formal quotation.

EVA Foam Roller-Big Dots · J.F.348

Model: J.F.348A / J.F.348B

A roller for gentle pre- and post-exercise self-massage. Choose length, diameter and surface texture from the model details and use controlled movements.

Full specifications, packaging information, applicable certifications and current lead time are available with a formal quotation.

Semicircle Foam Roller · F.F.054

Model: F.F.054A / F.F.054B

A half-round roller offering an alternative support surface for mat-based stability and body-control exercises. Choose orientation and dimensions for the session.

Full specifications, packaging information, applicable certifications and current lead time are available with a formal quotation.

EVA Foam Roller-Small Dots

Model: J.F.349AA / J.F.349AB / J.F.349BA / J.F.349BB / J.F.349CA / J.F.349CB / J.F.349DA / J.F.349DB

A roller for gentle pre- and post-exercise self-massage. Choose length, diameter and surface texture from the model details and use controlled movements.

Full specifications, packaging information, applicable certifications and current lead time are available with a formal quotation.

Mini EVA Foam Roller

Model: F.F.062A / F.F.062B

A roller for gentle pre- and post-exercise self-massage. Choose length, diameter and surface texture from the model details and use controlled movements.

Full specifications, packaging information, applicable certifications and current lead time are available with a formal quotation.

Massage Roller · J.F.358

Model: J.F.358A / J.F.358B

A roller for gentle pre- and post-exercise self-massage. Choose length, diameter and surface texture from the model details and use controlled movements.

Full specifications, packaging information, applicable certifications and current lead time are available with a formal quotation.

Solid Massage Roller

Model: J.F.370A

A roller for gentle pre- and post-exercise self-massage. Choose length, diameter and surface texture from the model details and use controlled movements.

Full specifications, packaging information, applicable certifications and current lead time are available with a formal quotation.

Massage Roller · F.F.016

Model: F.F.016A / F.F.016B

A roller for gentle pre- and post-exercise self-massage. Choose length, diameter and surface texture from the model details and use controlled movements.

Full specifications, packaging information, applicable certifications and current lead time are available with a formal quotation.

Massage Roller · F.F.024

Model: F.F.024A / F.F.024B

A roller for gentle pre- and post-exercise self-massage. Choose length, diameter and surface texture from the model details and use controlled movements.

Full specifications, packaging information, applicable certifications and current lead time are available with a formal quotation.

Massage Roller · J.F.328

Model: J.F.328A / J.F.328B / J.F.328C / J.F.328D / J.F.328E

A roller for gentle pre- and post-exercise self-massage. Choose length, diameter and surface texture from the model details and use controlled movements.

Full specifications, packaging information, applicable certifications and current lead time are available with a formal quotation.

Massage Roller · F.F.031

Model: F.F.031A / F.F.031B / F.F.031C / F.F.031D

A roller for gentle pre- and post-exercise self-massage. Choose length, diameter and surface texture from the model details and use controlled movements.

Full specifications, packaging information, applicable certifications and current lead time are available with a formal quotation.

EVA Foam Roller · F.F.018

Model: F.F.018AA / F.F.018AB / F.F.018AC

A roller for gentle pre- and post-exercise self-massage. Choose length, diameter and surface texture from the model details and use controlled movements.

Full specifications, packaging information, applicable certifications and current lead time are available with a formal quotation.

Peanut Yoga Ball

Model: F.F.025A / F.F.025B

An exercise ball for floor support, core control and balance drills. Choose diameter for the user and movement, and check inflation and the training surface.

Full specifications, packaging information, applicable certifications and current lead time are available with a formal quotation.

Massage Roller · F.F.026

Model: F.F.026A / F.F.026B

A roller for gentle pre- and post-exercise self-massage. Choose length, diameter and surface texture from the model details and use controlled movements.

Full specifications, packaging information, applicable certifications and current lead time are available with a formal quotation.

Muscle Texture Design Foam Roller

Model: F.F.032A / F.F.032B / F.F.032C / F.F.032D / F.F.032E

A roller for gentle pre- and post-exercise self-massage. Choose length, diameter and surface texture from the model details and use controlled movements.

Full specifications, packaging information, applicable certifications and current lead time are available with a formal quotation.

Massage Roller · J.F.173

Model: J.F.173A / J.F.173H / J.F.173I / J.F.173J / J.F.173K / J.F.173L

A roller for gentle pre- and post-exercise self-massage. Choose length, diameter and surface texture from the model details and use controlled movements.

Full specifications, packaging information, applicable certifications and current lead time are available with a formal quotation.

Peanut Massage Roller

Model: F.F.014A / F.F.014B / F.F.014C / F.F.014D

A peanut-shaped massage tool for gentle local contact before or after exercise. Choose size for the area and avoid direct heavy pressure on bony structures.

Full specifications, packaging information, applicable certifications and current lead time are available with a formal quotation.

Balance Cushion · F.T.038

Model: F.T.038A

A pad for standing balance, kneeling support and controlled floor exercises. Dimensions, material and any weight configuration depend on the model.

Full specifications, packaging information, applicable certifications and current lead time are available with a formal quotation.

Balance Cushion · F.B.012

Model: F.B.012A

A pad for standing balance, kneeling support and controlled floor exercises. Dimensions, material and any weight configuration depend on the model.

Full specifications, packaging information, applicable certifications and current lead time are available with a formal quotation.

Balance Cushion · F.B.003

Model: F.B.003A

A pad for standing balance, kneeling support and controlled floor exercises. Dimensions, material and any weight configuration depend on the model.

Full specifications, packaging information, applicable certifications and current lead time are available with a formal quotation.

Yoga Brick · F.T.009

Model: F.T.009A / F.T.009B

A yoga block for support during poses and stretches. Change orientation to vary support height and select shape, size and material from the specifications.

Full specifications, packaging information, applicable certifications and current lead time are available with a formal quotation.

Double Color Yoga Brick

Model: F.F.051A / F.F.051B / F.F.051C

A yoga block for support during poses and stretches. Change orientation to vary support height and select shape, size and material from the specifications.

Full specifications, packaging information, applicable certifications and current lead time are available with a formal quotation.

Yoga Brick · F.T.046

Model: F.T.046A / F.T.046B

A yoga block for support during poses and stretches. Change orientation to vary support height and select shape, size and material from the specifications.

Full specifications, packaging information, applicable certifications and current lead time are available with a formal quotation.

Spine Corrector Barrel

Model: J.F.310

An arc support for mat-based stretching and Pilates exercises. Choose dimensions for the user and class; no medical correction outcome is implied.

Full specifications, packaging information, applicable certifications and current lead time are available with a formal quotation.

Pilates Ring · F.R.018

Model: F.R.018

A Pilates ring for controlled pressing or squeezing in upper-body, leg and core sessions. Ring diameter and contact pads vary by model.

Full specifications, packaging information, applicable certifications and current lead time are available with a formal quotation.

Pilates Ring (Basic)

Model: F.T.010A / F.T.010B / F.T.010C / F.T.010D / F.T.010E

A Pilates ring for controlled pressing or squeezing in upper-body, leg and core sessions. Ring diameter and contact pads vary by model.

Full specifications, packaging information, applicable certifications and current lead time are available with a formal quotation.

Pilates Ring · F.T.011

Model: F.T.011A / F.T.011B / F.T.011C / F.T.011D

A Pilates ring for controlled pressing or squeezing in upper-body, leg and core sessions. Ring diameter and contact pads vary by model.

Full specifications, packaging information, applicable certifications and current lead time are available with a formal quotation.

Inflatable Fitness Ball

Model: F.C.001A / F.C.001D / F.C.001C

An exercise ball for floor support, core control and balance drills. Choose diameter for the user and movement, and check inflation and the training surface.

Full specifications, packaging information, applicable certifications and current lead time are available with a formal quotation.

Yoga Strap

Model: F.F.039A / F.F.039B

A strap with selectable grip or loop positions for controlled stretching. Adjust reach comfortably and avoid forcing the movement.

Full specifications, packaging information, applicable certifications and current lead time are available with a formal quotation.

Massage Ball

Model: F.F.004B / F.F.004E / F.F.004G

A shaped tool for gentle, localised self-massage. Confirm contact form, material and dimensions and avoid excessive pressure.

Full specifications, packaging information, applicable certifications and current lead time are available with a formal quotation.

EVA Massage Ball · F.F.049

Model: F.F.049A / F.F.049B / F.F.049C

A ball for gentle local pressure and self-massage. Adjust body position to control contact and select size, material and texture from the model details.

Full specifications, packaging information, applicable certifications and current lead time are available with a formal quotation.

Adjustable Calf Stretch Board

Model: F.T.012A / J.T.313A

A slant board for supported calf stretching during warm-up and mobility sessions. Select the listed angle and size and maintain balance throughout.

Full specifications, packaging information, applicable certifications and current lead time are available with a formal quotation.

Mini Massage Gun · J.F.364

Model: J.F.364A / J.F.364B

A massage gun for gentle local relaxation around training sessions. Settings, battery runtime and heads depend on the model; it is not a substitute for medical treatment.

Full specifications, packaging information, applicable certifications and current lead time are available with a formal quotation.

Mini Massage Gun · F.F.063

Model: F.F.063A / F.F.063C

A massage gun for gentle local relaxation around training sessions. Settings, battery runtime and heads depend on the model; it is not a substitute for medical treatment.

Full specifications, packaging information, applicable certifications and current lead time are available with a formal quotation.

EPP Foam Roller(45°) PU Cover

Model: J.F.008C / J.F.008B / J.F.008A

A roller for gentle pre- and post-exercise self-massage. Choose length, diameter and surface texture from the model details and use controlled movements.

Full specifications, packaging information, applicable certifications and current lead time are available with a formal quotation.

Magnetic Resistance Sled

Three-wheel magnetic-resistance sled with adjustable handles and upright storage.

Full specifications, packaging information, applicable certifications and current lead time are available with a formal quotation.

Air Rower

Air-resistance rower with a training console and adjustable foot supports.

Full specifications, packaging information, applicable certifications and current lead time are available with a formal quotation.

Air Bike

Air bike with moving handles and an interval-training console.

Full specifications, packaging information, applicable certifications and current lead time are available with a formal quotation.

Ski Trainer

Compact ski trainer for upper-body pulling and conditioning exercises.

Full specifications, packaging information, applicable certifications and current lead time are available with a formal quotation.

Large Incline Trainers

Incline treadmill with separate drive and lift motors and a training console.

Full specifications, packaging information, applicable certifications and current lead time are available with a formal quotation.

Trackless Ellipticals

Trackless elliptical trainer with a compact upright structure.

Full specifications, packaging information, applicable certifications and current lead time are available with a formal quotation.

40inch Trampoline

Model: X.T.011

A rebounder for stationary bouncing and rhythmic aerobic sessions. Check legs, clearance and assembly requirements before use.

Full specifications, packaging information, applicable certifications and current lead time are available with a formal quotation.

Elastic Jump Rope(Women)

Model: X.T.007A / X.T.007B

A jump rope for rhythm and conditioning drills, including interval sessions. Choose length and handle design and allow sufficient clearance.

Full specifications, packaging information, applicable certifications and current lead time are available with a formal quotation.

Aluminum Jump Rope

Model: X.T.006

A jump rope for rhythm and conditioning drills, including interval sessions. Choose length and handle design and allow sufficient clearance.

Full specifications, packaging information, applicable certifications and current lead time are available with a formal quotation.

Lighting Jump Rope

Model: X.T.009A

A jump rope for rhythm and conditioning drills, including interval sessions. Choose length and handle design and allow sufficient clearance.

Full specifications, packaging information, applicable certifications and current lead time are available with a formal quotation.

PVC Jump Rope

Model: X.T.013

A jump rope for rhythm and conditioning drills, including interval sessions. Choose length and handle design and allow sufficient clearance.

Full specifications, packaging information, applicable certifications and current lead time are available with a formal quotation.

Kettlebell Storage Rack

Two-tier storage rack for kettlebells and compatible training weights.

Full specifications, packaging information, applicable certifications and current lead time are available with a formal quotation.

Wall Storage Rack

Wall-mounted organiser for compact functional-training areas.

Full specifications, packaging information, applicable certifications and current lead time are available with a formal quotation.

Bp Storage Rack

Double-sided rack for organising weight plates and barbells.

Full specifications, packaging information, applicable certifications and current lead time are available with a formal quotation.

Hex Dumbbell Rack

Two-tier flat-tray rack for hexagonal and other polygonal dumbbells.

Full specifications, packaging information, applicable certifications and current lead time are available with a formal quotation.

Hang Mat Rack 49

Wall bracket for hanging training mats with compatible holes.

Full specifications, packaging information, applicable certifications and current lead time are available with a formal quotation.

Saddle Dumbbell Rack

Two-tier saddle rack for organising round-headed dumbbells.

Full specifications, packaging information, applicable certifications and current lead time are available with a formal quotation.

Wall Bracket Type 70

Wall bracket for hanging mats without holes.

Full specifications, packaging information, applicable certifications and current lead time are available with a formal quotation.

Roller Pared Rack

Wall-mounted roller dispenser with an adjustable installation width.

Full specifications, packaging information, applicable certifications and current lead time are available with a formal quotation.

Five Layer Storage Rack

Five-level rack for organising mixed functional-training equipment.

Full specifications, packaging information, applicable certifications and current lead time are available with a formal quotation.

Modular Storage Rack

Compact multi-purpose rack with side storage positions and hanging options.

Full specifications, packaging information, applicable certifications and current lead time are available with a formal quotation.

Vertical Dumbbell Rack

Vertical dumbbell rack designed for ten pairs of small dumbbells.

Full specifications, packaging information, applicable certifications and current lead time are available with a formal quotation.

Weight Plate Rack

Vertical weight-plate rack for organised storage and access.

Full specifications, packaging information, applicable certifications and current lead time are available with a formal quotation.

Yoga Mat Holder

Tiered organiser for mats and rollers in a compact footprint.

Full specifications, packaging information, applicable certifications and current lead time are available with a formal quotation.

Vertical Rack For Medicine Balls/Power Bags

Vertical storage tree for medicine balls and training bags.

Full specifications, packaging information, applicable certifications and current lead time are available with a formal quotation.

Yoga Mat Standing Rack

Double-sided mat rack with adjustable hanging hooks.

Full specifications, packaging information, applicable certifications and current lead time are available with a formal quotation.

Fitness Accessory Storage Rack

Display rack with movable hooks for training handles and accessories.

Full specifications, packaging information, applicable certifications and current lead time are available with a formal quotation.

Pump Barbell Set Rack

Rack for organising group-training barbell sets.

Full specifications, packaging information, applicable certifications and current lead time are available with a formal quotation.

Yoga Ball Rack

Model: RSPRO5006 - 01

Modular storage stand for Swiss exercise balls.

Full specifications, packaging information, applicable certifications and current lead time are available with a formal quotation.

Accessory storage Rack

Accessory rack with handle supports and trays for smaller items.

Full specifications, packaging information, applicable certifications and current lead time are available with a formal quotation.

9 Barbell Holder

Compact vertical holder with nine barbell sleeve positions.

Full specifications, packaging information, applicable certifications and current lead time are available with a formal quotation.

Barbell Rack For 10 Pieces Barbells

Double-sided rack for ten fixed-weight barbells.

Full specifications, packaging information, applicable certifications and current lead time are available with a formal quotation.

Boxing Gloves Display Rack

Double-sided hanging rack for boxing gloves and accessories.

Full specifications, packaging information, applicable certifications and current lead time are available with a formal quotation.

Dumbbell Rack · X.M.004

Model: X.M.004A

Storage for organising equipment and keeping training areas orderly. Choose according to equipment dimensions and capacity; displayed training items are not assumed to be included.

Full specifications, packaging information, applicable certifications and current lead time are available with a formal quotation.

Balance Ball Rack

Model: X.Y.008

Storage for organising equipment and keeping training areas orderly. Choose according to equipment dimensions and capacity; displayed training items are not assumed to be included.

Full specifications, packaging information, applicable certifications and current lead time are available with a formal quotation.

Dumbbell Rack · X.M.002

Model: X.M.002A

Storage for organising equipment and keeping training areas orderly. Choose according to equipment dimensions and capacity; displayed training items are not assumed to be included.

Full specifications, packaging information, applicable certifications and current lead time are available with a formal quotation.

Dumbbell Rack · J.Y.1112

Model: J.Y.1112

Storage for organising equipment and keeping training areas orderly. Choose according to equipment dimensions and capacity; displayed training items are not assumed to be included.

Full specifications, packaging information, applicable certifications and current lead time are available with a formal quotation.

Kettlebell Rack

Model: X.M.019

Storage for organising equipment and keeping training areas orderly. Choose according to equipment dimensions and capacity; displayed training items are not assumed to be included.

Full specifications, packaging information, applicable certifications and current lead time are available with a formal quotation.

Fitness Ball Rack

Model: X.Y.015

Storage for organising equipment and keeping training areas orderly. Choose according to equipment dimensions and capacity; displayed training items are not assumed to be included.

Full specifications, packaging information, applicable certifications and current lead time are available with a formal quotation.

Medicine Ball Rack

Model: X.Y.004

Storage for organising equipment and keeping training areas orderly. Choose according to equipment dimensions and capacity; displayed training items are not assumed to be included.

Full specifications, packaging information, applicable certifications and current lead time are available with a formal quotation.

Adjustable Yoga Mat Hanging Rack

Model: X.P.007

Storage for organising equipment and keeping training areas orderly. Choose according to equipment dimensions and capacity; displayed training items are not assumed to be included.

Full specifications, packaging information, applicable certifications and current lead time are available with a formal quotation.

Weight Plate & Barbell Rack

Model: X.M.017

Storage for organising equipment and keeping training areas orderly. Choose according to equipment dimensions and capacity; displayed training items are not assumed to be included.

Full specifications, packaging information, applicable certifications and current lead time are available with a formal quotation.

Olympic Bar Rack

Model: X.M.018

Storage for organising equipment and keeping training areas orderly. Choose according to equipment dimensions and capacity; displayed training items are not assumed to be included.

Full specifications, packaging information, applicable certifications and current lead time are available with a formal quotation.

Storage Rack

Model: X.P.003-1A / X.P.003-1B / X.P.003-1C / X.P.003-1D / X.P.003-1E / X.P.003-2 / X.P.003-3

Storage for organising equipment and keeping training areas orderly. Choose according to equipment dimensions and capacity; displayed training items are not assumed to be included.

Full specifications, packaging information, applicable certifications and current lead time are available with a formal quotation.

Upright Storage Rack Model A

Model: J.T.374

Storage for organising equipment and keeping training areas orderly. Choose according to equipment dimensions and capacity; displayed training items are not assumed to be included.

Full specifications, packaging information, applicable certifications and current lead time are available with a formal quotation.

Multi-functional Storage Rack

Model: J.T.375

Storage for organising equipment and keeping training areas orderly. Choose according to equipment dimensions and capacity; displayed training items are not assumed to be included.

Full specifications, packaging information, applicable certifications and current lead time are available with a formal quotation.

Landing Storage Rack Model A

Model: J.T.376

Storage for organising equipment and keeping training areas orderly. Choose according to equipment dimensions and capacity; displayed training items are not assumed to be included.

Full specifications, packaging information, applicable certifications and current lead time are available with a formal quotation.

Upright Storage Rack Model B

Model: J.T.377

Storage for organising equipment and keeping training areas orderly. Choose according to equipment dimensions and capacity; displayed training items are not assumed to be included.

Full specifications, packaging information, applicable certifications and current lead time are available with a formal quotation.

Landing Storage Rack Model B

Model: J.T.378

Storage for organising equipment and keeping training areas orderly. Choose according to equipment dimensions and capacity; displayed training items are not assumed to be included.

Full specifications, packaging information, applicable certifications and current lead time are available with a formal quotation.

three hole storage rack

Model: J.T.379

Storage for organising equipment and keeping training areas orderly. Choose according to equipment dimensions and capacity; displayed training items are not assumed to be included.

Full specifications, packaging information, applicable certifications and current lead time are available with a formal quotation.

Independent storage rack

Model: JA□2 / JA□3 / JA□4 / JA□5

Storage for organising equipment and keeping training areas orderly. Choose according to equipment dimensions and capacity; displayed training items are not assumed to be included.

Full specifications, packaging information, applicable certifications and current lead time are available with a formal quotation.

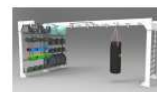

Suspension Training and Storage Rack

Model: JB-2 / JB-3 / JB-4 / JB-5

A rack combining storage with a suspension-training frame. Confirm dimensions, anchor points and accessories; pictured equipment is not automatically included.

Full specifications, packaging information, applicable certifications and current lead time are available with a formal quotation.

Suspension Bridge and Storage Rack

Model: JC-2 / JC-3 / JC-4 / JC-5

A rack combining storage with a suspension-training frame. Confirm dimensions, anchor points and accessories; pictured equipment is not automatically included.

Full specifications, packaging information, applicable certifications and current lead time are available with a formal quotation.

Corner

Model: JD-1+1 / JD-1+2

Storage for organising equipment and keeping training areas orderly. Choose according to equipment dimensions and capacity; displayed training items are not assumed to be included.

Full specifications, packaging information, applicable certifications and current lead time are available with a formal quotation.

Products Storage Rack

Model: J.M.029B

Storage for organising equipment and keeping training areas orderly. Choose according to equipment dimensions and capacity; displayed training items are not assumed to be included.

Full specifications, packaging information, applicable certifications and current lead time are available with a formal quotation.

Group Lesson Barbell Rack

Model: J.M.013B

Storage for organising equipment and keeping training areas orderly. Choose according to equipment dimensions and capacity; displayed training items are not assumed to be included.

Full specifications, packaging information, applicable certifications and current lead time are available with a formal quotation.

Power Bag Rack

Model: J.M.061A

Storage for organising equipment and keeping training areas orderly. Choose according to equipment dimensions and capacity; displayed training items are not assumed to be included.

Full specifications, packaging information, applicable certifications and current lead time are available with a formal quotation.

Tricep Rope C2

Nylon triceps rope with end stops for cable exercises.

Full specifications, packaging information, applicable certifications and current lead time are available with a formal quotation.

Open Row C2

Open rowing handle with coated grips for cable-machine exercises.

Full specifications, packaging information, applicable certifications and current lead time are available with a formal quotation.

Triangle Row C2

Triangle handle for cable rows and related pulling exercises.

Full specifications, packaging information, applicable certifications and current lead time are available with a formal quotation.

Landmine Ball Head

Rubber landmine ball attachment for compatible Olympic barbells.

Full specifications, packaging information, applicable certifications and current lead time are available with a formal quotation.

Single Hole Landmine Attachment

Single-sleeve landmine base for plate-loaded functional exercises.

Full specifications, packaging information, applicable certifications and current lead time are available with a formal quotation.

Double Holes Landmine Attachment

Double-sleeve landmine base with a rotating shaft.

Full specifications, packaging information, applicable certifications and current lead time are available with a formal quotation.

Stirrup Handle C2

Stirrup handles for cable-machine arm and upper-body exercises.

Full specifications, packaging information, applicable certifications and current lead time are available with a formal quotation.

Tricep Bar C2

Straight triceps attachment with coated grip areas.

Full specifications, packaging information, applicable certifications and current lead time are available with a formal quotation.

Club Grip Landmine Attachment

Landmine handle for single-arm presses, pulls and rotations.

Full specifications, packaging information, applicable certifications and current lead time are available with a formal quotation.

U-Bar Row Attachment

U-shaped barbell attachment for pushing and pulling exercises.

Full specifications, packaging information, applicable certifications and current lead time are available with a formal quotation.

V-Bar Row Attachment

Wide landmine handle for upper-back rowing exercises.

Full specifications, packaging information, applicable certifications and current lead time are available with a formal quotation.

Neutral Bar C2

Neutral-grip cable bar with coated hand positions.

Full specifications, packaging information, applicable certifications and current lead time are available with a formal quotation.

Long Curbarc2

Curved cable bar offering multiple grip positions.

Full specifications, packaging information, applicable certifications and current lead time are available with a formal quotation.

Long Lat Bar C2

Long cable bar for pulldowns and other upper-body exercises.

Full specifications, packaging information, applicable certifications and current lead time are available with a formal quotation.

L Bar Row Handle Attachment

Compact landmine handle for pulling and shoulder-extension movements.

Full specifications, packaging information, applicable certifications and current lead time are available with a formal quotation.

T Barrow Landmine Attachment Handle

T-shaped landmine rowing attachment with narrow and wide grip options.

Full specifications, packaging information, applicable certifications and current lead time are available with a formal quotation.

Revolving Grappler Handle

Rotating training handle for explosive lifting and upper-body exercises.

Full specifications, packaging information, applicable certifications and current lead time are available with a formal quotation.

Heavy Duty Bands Handles

Reinforced handles for resistance bands and cable machines.

Full specifications, packaging information, applicable certifications and current lead time are available with a formal quotation.

Interval Timer

Six-digit training timer with countdown, count-up and interval modes.

Full specifications, packaging information, applicable certifications and current lead time are available with a formal quotation.

Ab Exercise Mat

Model: RSPRO6003

Curved abdominal mat for controlled core exercises.

Full specifications, packaging information, applicable certifications and current lead time are available with a formal quotation.

Cone Shape Pull Up Grip

Reversible cone-shaped pull-up grips for grip and wrist training.

Full specifications, packaging information, applicable certifications and current lead time are available with a formal quotation.

Handle Pro

Dual-length strap for face pulls and other cable exercises.

Full specifications, packaging information, applicable certifications and current lead time are available with a formal quotation.

Inverted Mat

Model: RSPRO6001

Padded support designed for handstand push-up practice.

Full specifications, packaging information, applicable certifications and current lead time are available with a formal quotation.

Preacher Pad

Portable preacher cushion for supporting seated biceps curls.

Full specifications, packaging information, applicable certifications and current lead time are available with a formal quotation.

Cannonball Power Pull Up Ball Hold

Hanging ball grip for pull-ups and grip-strength exercises.

Full specifications, packaging information, applicable certifications and current lead time are available with a formal quotation.

Ab Slings Straps(Pair)

Padded arm slings with extension straps for hanging leg raises.

Full specifications, packaging information, applicable certifications and current lead time are available with a formal quotation.

Weightlifting Drop Pads(Pair)

Dense foam drop pads for reducing impact noise and vibration.

Full specifications, packaging information, applicable certifications and current lead time are available with a formal quotation.

Bundled Kneecap

Model: RSPRO6041

Elastic knee wraps for supportive compression during strength training.

Full specifications, packaging information, applicable certifications and current lead time are available with a formal quotation.

Bundled Elbow Sleeve

Elastic elbow wraps with hook-and-loop fastening.

Full specifications, packaging information, applicable certifications and current lead time are available with a formal quotation.

Magnetic Clamps

Model: [RSPRO6060_01](#)

Magnetic barbell collars with an internal non-slip lining.

Full specifications, packaging information, applicable certifications and current lead time are available with a formal quotation.

Barbell Sheath 2.0

Padded barbell sleeve with a durable cover and hanging loop.

Full specifications, packaging information, applicable certifications and current lead time are available with a formal quotation.

Lifting Wrist Straps

Model: [RSPRO6065](#)

Closed-loop lifting straps with textured grip surfaces.

Full specifications, packaging information, applicable certifications and current lead time are available with a formal quotation.

Adjustable Ankle Strap

Adjustable padded ankle straps with D-rings for cable exercises.

Full specifications, packaging information, applicable certifications and current lead time are available with a formal quotation.

Quick Lock Collars

Quick-lock barbell collars for securing compatible plates.

Full specifications, packaging information, applicable certifications and current lead time are available with a formal quotation.

Barbell Gluteus Sheath

Padded sleeve for distributing pressure during hip-thrust exercises.

Full specifications, packaging information, applicable certifications and current lead time are available with a formal quotation.

Super Wrist Guard

Adjustable wrist wraps for supportive positioning during lifting.

Full specifications, packaging information, applicable certifications and current lead time are available with a formal quotation.

Slip Lifting Grips

Fingerless lifting grips with an adjustable wrist fastening.

Full specifications, packaging information, applicable certifications and current lead time are available with a formal quotation.

Barbell Spring Collar

Quick-release collars with a press-to-lock mechanism.

Full specifications, packaging information, applicable certifications and current lead time are available with a formal quotation.

Weightlifting Drop Pads(Pair)

Silicone wedges for raising a plate edge during loading changes.

Full specifications, packaging information, applicable certifications and current lead time are available with a formal quotation.

Dipping Belt

Chain-equipped dipping belt for adding external weight.

Full specifications, packaging information, applicable certifications and current lead time are available with a formal quotation.

Weightlifting Belt

Model: RSPRO6034 - 01

Contoured lifting belt with an adjustable closure.

Full specifications, packaging information, applicable certifications and current lead time are available with a formal quotation.

Gym Step Support

Model: X.B.003B

A support component for a compatible exercise step. Confirm the step model, quantity and fitting method; it is not intended as a standalone platform.

Full specifications, packaging information, applicable certifications and current lead time are available with a formal quotation.

T Bar Row Platform

Model: X.S.018

A landmine-style setup for rowing and other bar-based movements. Confirm bar compatibility, anchoring method and included attachments.

Full specifications, packaging information, applicable certifications and current lead time are available with a formal quotation.

Battle Rope Anchor

Model: X.M.024

An anchor for a fixed rope-training point. Confirm the mounting surface, fasteners and rope compatibility before installation and use.

Full specifications, packaging information, applicable certifications and current lead time are available with a formal quotation.

Crossfit Handle

Model: X.R.018

A handle or bar for compatible cable systems, offering different grips for pulls and rows. Confirm dimensions, attachment interface and compatibility.

Full specifications, packaging information, applicable certifications and current lead time are available with a formal quotation.

Weightlifting Belt

Model: X.T.008A / X.T.008B / X.T.008C

A lifting belt for waist coverage during strength training. Choose the correct fit and fastening; it does not replace appropriate technique or load selection.

Full specifications, packaging information, applicable certifications and current lead time are available with a formal quotation.

Dual-Grip Row Handle

Model: X.T.012A

A handle or bar for compatible cable systems, offering different grips for pulls and rows. Confirm dimensions, attachment interface and compatibility.

Full specifications, packaging information, applicable certifications and current lead time are available with a formal quotation.

Short Straight Cable Bar

Model: X.T.012B

A handle or bar for compatible cable systems, offering different grips for pulls and rows. Confirm dimensions, attachment interface and compatibility.

Full specifications, packaging information, applicable certifications and current lead time are available with a formal quotation.

Angled Cable Bar

Model: X.T.012C

A handle or bar for compatible cable systems, offering different grips for pulls and rows. Confirm dimensions, attachment interface and compatibility.

Full specifications, packaging information, applicable certifications and current lead time are available with a formal quotation.

Medium Curved Cable Bar

Model: X.T.012D

A handle or bar for compatible cable systems, offering different grips for pulls and rows. Confirm dimensions, attachment interface and compatibility.

Full specifications, packaging information, applicable certifications and current lead time are available with a formal quotation.

Long Lat Pulldown Bar

Model: X.T.012E

A handle or bar for compatible cable systems, offering different grips for pulls and rows. Confirm dimensions, attachment interface and compatibility.

Full specifications, packaging information, applicable certifications and current lead time are available with a formal quotation.

Short Cable Bar

Model: X.M.035D

A handle or bar for compatible cable systems, offering different grips for pulls and rows. Confirm dimensions, attachment interface and compatibility.

Full specifications, packaging information, applicable certifications and current lead time are available with a formal quotation.

Multi-Grip Pulldown Bar

Model: X.M.035F

A handle or bar for compatible cable systems, offering different grips for pulls and rows. Confirm dimensions, attachment interface and compatibility.

Full specifications, packaging information, applicable certifications and current lead time are available with a formal quotation.

Barbell Assist Stand

Model: X.M.006

An aid for supporting a bar during plate changes. Check compatibility, support position and use limits and keep the equipment stable while loading.

Full specifications, packaging information, applicable certifications and current lead time are available with a formal quotation.

Fitness Gloves(Men)

Model: X.T.004A / X.T.004B

Training gloves providing hand coverage with finger mobility. Choose size, colour and palm construction from the selected model's details.

Full specifications, packaging information, applicable certifications and current lead time are available with a formal quotation.

Fitness Gloves(Women)

Model: X.T.005A / X.T.005B

Training gloves providing hand coverage with finger mobility. Choose size, colour and palm construction from the selected model's details.

Full specifications, packaging information, applicable certifications and current lead time are available with a formal quotation.

Weightlifting Drop Pads

Model: X.M.033

Pads for designated barbell landing areas. Confirm dimensions, filling material and permitted use conditions for the lifting setup.

Full specifications, packaging information, applicable certifications and current lead time are available with a formal quotation.

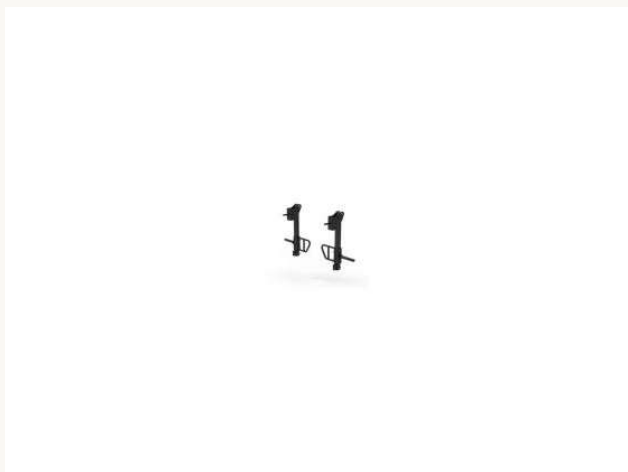

Rack Safety Arms

Model: J.M.230A

Safety supports for a compatible training frame. Confirm mounting interface, support length and load requirements before ordering and installation.

Full specifications, packaging information, applicable certifications and current lead time are available with a formal quotation.

Rack Lever Arms

Model: J.M.230C

Lever arms for a compatible training frame, extending pressing options. Confirm attachment points, movement range and loading arrangements; compatibility is not universal.

Full specifications, packaging information, applicable certifications and current lead time are available with a formal quotation.

Rack Dip Attachment

Model: J.M.230B

A dip attachment for compatible racks. Check mounting interface, grip spacing and frame requirements before use.

Full specifications, packaging information, applicable certifications and current lead time are available with a formal quotation.

Olympic Barbell Collars

Model: P.0.003B

Collars for securing plates on compatible bar sleeves. Match internal diameter and locking design and check closure before lifting.

Full specifications, packaging information, applicable certifications and current lead time are available with a formal quotation.

Pro Weight Lifting Neck Pad

Model: J.F.101B

A bar pad for covered contact with the body during suitable exercises. Match pad length, internal diameter and closure to the bar.

Full specifications, packaging information, applicable certifications and current lead time are available with a formal quotation.

Triceps Training Rope

Model: J.T.016

A rope attachment for triceps pressdowns and suitable cable pulls. Confirm length, ends and attachment interface and check secure connection.

Full specifications, packaging information, applicable certifications and current lead time are available with a formal quotation.

Fitness Gloves · F.T.020

Model: F.T.020CA / F.T.020CB / F.T.020EA / F.T.020EB

Training gloves providing hand coverage with finger mobility. Choose size, colour and palm construction from the selected model's details.

Full specifications, packaging information, applicable certifications and current lead time are available with a formal quotation.

Fitness Gloves · F.F.043

Model: F.F.043A / F.F.043B / F.F.043AA / F.F.043BA

Training gloves providing hand coverage with finger mobility. Choose size, colour and palm construction from the selected model's details.

Full specifications, packaging information, applicable certifications and current lead time are available with a formal quotation.

Fitness Gloves · F.T.050

Model: F.T.050AA / F.T.050AB / F.T.050BA / F.T.050BB

Training gloves providing hand coverage with finger mobility. Choose size, colour and palm construction from the selected model's details.

Full specifications, packaging information, applicable certifications and current lead time are available with a formal quotation.

Fitness Gloves · F.T.049

Model: F.T.049AA / F.T.049AB / F.T.049BA / F.T.049BB

Training gloves providing hand coverage with finger mobility. Choose size, colour and palm construction from the selected model's details.

Full specifications, packaging information, applicable certifications and current lead time are available with a formal quotation.

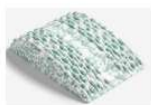

AB Mat

Model: F.F.042

A support pad for controlled floor-based abdominal exercises. Choose size, contour and material and maintain a comfortable position.

Full specifications, packaging information, applicable certifications and current lead time are available with a formal quotation.

EVA AB Mat

Model: F.F.064A

A support pad for controlled floor-based abdominal exercises. Choose size, contour and material and maintain a comfortable position.

Full specifications, packaging information, applicable certifications and current lead time are available with a formal quotation.

Ankle Training Straps

Model: J.M.257 / J.M.258

An ankle strap for compatible cables or resistance cords. Check strap size, attachment ring and fit without restricting comfortable movement.

Full specifications, packaging information, applicable certifications and current lead time are available with a formal quotation.

Multifunctional Wooden Body Stick

Wooden training sticks for posture practice, warm-ups and instruction.

Full specifications, packaging information, applicable certifications and current lead time are available with a formal quotation.

Finger Clip Pulse Oximeter

Finger-clip pulse oximeter for monitoring oxygen-saturation readings.

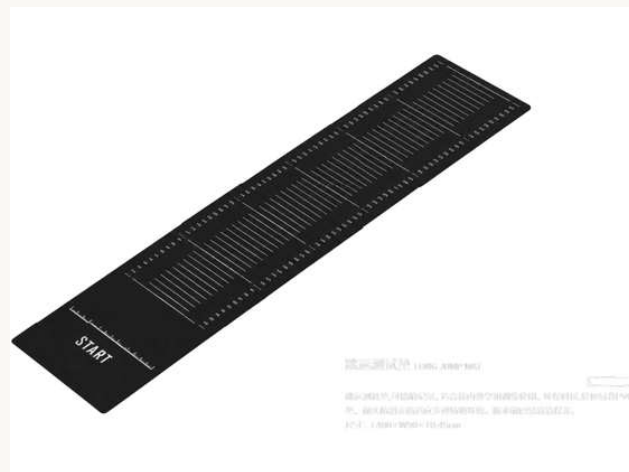

Full specifications, packaging information, applicable certifications and current lead time are available with a formal quotation.

Body Fat Caliper

Measurement set for tracking body circumference and skinfold thickness.

Full specifications, packaging information, applicable certifications and current lead time are available with a formal quotation.

Long Jump Mat

Roll-up long-jump measuring mat with a marked scale.

Full specifications, packaging information, applicable certifications and current lead time are available with a formal quotation.

Functional Movement Screen

Movement-screening kit for structured mobility and stability assessments.

Full specifications, packaging information, applicable certifications and current lead time are available with a formal quotation.

Joint Range Of Motion Measuring Instrument

Dial-based instrument for measuring joint range of motion.

Full specifications, packaging information, applicable certifications and current lead time are available with a formal quotation.

Fascia Stretch Training Stick

Model: RSPRO7009_01

Flexible training sticks in several lengths for controlled stretching exercises.

Full specifications, packaging information, applicable certifications and current lead time are available with a formal quotation.

Vertical Jump Tester—Wall-Mounted

Wall-mounted vertical-jump tester with rotating measurement vanes.

Full specifications, packaging information, applicable certifications and current lead time are available with a formal quotation.

Vertical Jump Tester—To Ground

Freestanding vertical-jump tester for movable indoor or outdoor assessment setups.

Full specifications, packaging information, applicable certifications and current lead time are available with a formal quotation.

Throwing Target with Display

Model: X.M.036

A ball-throwing target supplied with a display component. Confirm counting functions, power supply and installation details for the final configuration.

Full specifications, packaging information, applicable certifications and current lead time are available with a formal quotation.

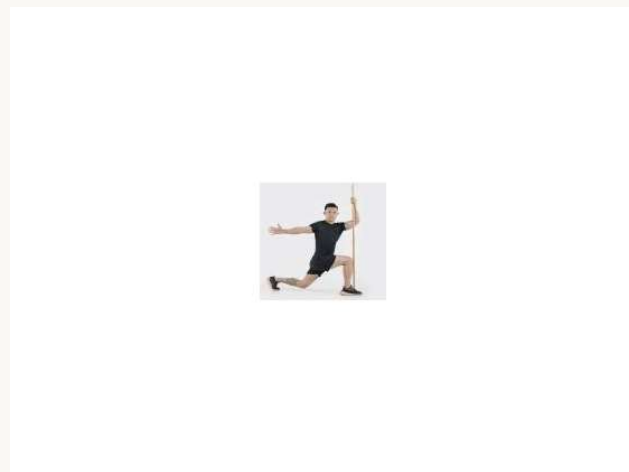

Body Posture Assessment Chart

Model: X.Y.019

A reference chart for observing posture and recording alignment against a consistent background. It does not replace clinical assessment.

Full specifications, packaging information, applicable certifications and current lead time are available with a formal quotation.

Body Position Stick

Model: J.M.062A / J.M.062B

A positioning stick for squat, stretch and alignment drills. Select length for the session; it is not a loading bar or weight-bearing support.

Full specifications, packaging information, applicable certifications and current lead time are available with a formal quotation.

Competitive Kettlebell

Model: RSPRO8001_01

Customisable competition-style kettlebells with a coated surface and metal handle.

Full specifications, packaging information, applicable certifications and current lead time are available with a formal quotation.

12 Side Dumbbell

Model: RSPRO8003_01

Customisable twelve-sided dumbbells with engraved and filled branding options.

Full specifications, packaging information, applicable certifications and current lead time are available with a formal quotation.

Training Kettlebell

Model: RSPRO8002_01

Customisable training kettlebells with coated iron cores.

Full specifications, packaging information, applicable certifications and current lead time are available with a formal quotation.

12 Side Barbell-Straight

Model: RSPRO8004_01

Customisable straight fixed barbells with twelve-sided coated heads.

Full specifications, packaging information, applicable certifications and current lead time are available with a formal quotation.

12 Side Barbell-Curl

Model: [RSPRO8005_10](#)

Customisable curl fixed barbells with twelve-sided coated heads.

Full specifications, packaging information, applicable certifications and current lead time are available with a formal quotation.

12 Side Grip Plates

Customisable twelve-sided grip plates with a coated finish.

Full specifications, packaging information, applicable certifications and current lead time are available with a formal quotation.

Training Plates -Black

Model: [RSPRO8008_01](#)

Black training plates with screen-printed branding options.

Full specifications, packaging information, applicable certifications and current lead time are available with a formal quotation.

Hub Grip Plates

Model: [RSPRO8007_01](#)

Customisable hub-style grip plates with polyurethane coating.

Full specifications, packaging information, applicable certifications and current lead time are available with a formal quotation.

Competition Plates -Coloured

Model: [RSPRO8009_01](#)

Coloured competition plates with screen-printed branding options.

Full specifications, packaging information, applicable certifications and current lead time are available with a formal quotation.
